By letter dated May 14, 1974, with attached  
appendices, the SSC requested certain information and documents  
from the FBI.

Enclosed for your approval and forwarding to the  
Committee is the original of a memorandum and a copy of  
each of the documents described in such memorandum.

With regard to your approval in this matter, your  
attention is invited to the civil suits captioned "Morton H.  
Halperin, et al., versus Henry A. Kissinger, et al., United States  
District Court, District of Columbia (USDC, DC) Civil Action  
File Number 1187-73," and "William A. K. Lake, et al., versus  
John D. Ehrlichman, et al., USDC, DC, Civil Action File Number  
74-887" and the court order issued in the Halperin suit dated  
April 1, 1974, by USDC Judge John Lewis Smith, which sealed  
certain documents and other material concerning Halperin  
relating to electronic surveillance maintained on that plaintiff.  
It is submitted that your decision in the matter of furnishing  
the enclosed information to the SSC may require consideration  
of the above court order.

Reference is made to SSC letter dated May 14, 1975,  
with attached appendices, requesting certain documents and  
other information from the FBI.

Item 6, Appendix D of referenced communication  
refers back to Item number 4 of such Appendix and requests,  
inter alia, that with respect to each surveillance listed  
in response to Item 4:

- (a) the address of the premises surveilled, and  
the number of the telephone surveilled;
- (b) a general description of the surveillance  
technique employed;
- (c) all memoranda and other materials reflecting  
written or oral authorization and reauthorization by the  
President, the Attorney General, the Director of the FBI,  
White House officials, or National Security Council officials;
- (d) a list of all memoranda and other materials  
reflecting dissemination outside the FBI of information from  
each surveillance, stating author, address(es), and dates,  
together with the purpose of such dissemination.

Item 4 of Appendix D requested a list of all  
electronic surveillances, identified by subject and target, of  
the so-called "Kissinger 17," and has been responded to  
previously.

Re: Request Pertaining To Electronic  
Surveillance

(a) The surveillances in question were instituted on the office and/or residence telephone of the individual subjects. In some instances the telephone number and address are listed in the signed authorizations included under Part (c) of this request. No formal record of the addresses or telephone numbers of the subjects was made during the period of the surveillances and with the exception of that information appearing in the authorization noted above, no other information in this regard is available in FBI records.

(b) The surveillances in question were all electronic telephone surveillances which are also known as wiretaps.

(c) Attached are written authorizations by the Attorney General covering these surveillances. In each of the surveillances the authorization was received in writing. In the case of the surveillance on Colonel Robert W. Fursley (later Brigadier General Robert W. Fursley) and Helmut Sonnenfeldt, electronic surveillances were installed, discontinued and then reinstated at a later date. In these two cases reauthorizations are also enclosed.

(d) Attached is a list containing information responsive to this request.

Re: Request Pertaining To Electronic  
Surveillance

NOTE:

Two of the 17 subjects of wiretaps have entered suits against the Government seeking damages in connection with the electronic surveillances. The remaining 15 individuals of the surveillances are not plaintiffs; however, the Government has not specifically acknowledged these individuals to have been the subjects of electronic surveillances. Departmental Attorney Edward Christenbury advised on 6/6/75 that the Department as of that time had not made a final determination as to whether the electronic surveillance material requested by the SSC concerning the two plaintiffs (specifically Morton H. Falperin and William Anthony Lake) would be furnished to the Committee. The authorizations on all of the wiretaps, however, are being furnished to the Department of Justice, which will make the legal determination as to whether the information will be turned over to the SSC. The memorandum has "~~TOP SECRET~~ Secret" material attached.

[The phrases "with British Intelligence," and "that British Intelligence"] were excised on lines 10 and 11 (S) respectively of paragraph three of enclosure dated May 29, 1969, which approved placing the telephone surveillance on Henry Brandon. [The excision was made to protect British Intelligence.] (S)

This matter has been coordinated with Special Agents Robert F. Peterson and Robert F. Olmert of the Legal Counsel Division.

MEMORANDUM FOR THE ATTORNEY GENERAL

RE: COLONEL ALEXANDER M. HAIG  
TECHNICAL SURVEILLANCE REQUEST

DECLASSIFIED BY SP2ALM/edg  
ON 11/19/00  
MDR-16

On May 10, 1969, Colonel Alexander M. Haig, who is assigned to Dr. Henry A. Kissinger's staff, came to this Bureau to advise that a request was being made on the highest authority which involves a matter of most grave and serious consequence to our national security. He stressed that it is so sensitive it demands handling on a need-to-know basis, with no record maintained. He requested that telephone surveillance be placed on the following individuals to determine if a serious security problem exists: Daniel Ira Davidson; Morton H. Halperin; Colonel Robert Pursley; and Helmut Sonnenfeldt.

Davidson is aged 32 and is Department of State employee who has been on detail to the National Security Council since December, 1968. He was assigned to the Paris peace conference between May and November, 1968. Applicant-type investigation by this Bureau indicated, while in Paris, he reportedly leaked information to newspaper concerning happenings at the peace conference. This apparently was at the beginning of his assignment, and after being warned he discontinued his reported leaks.

Halperin, aged 30, was detailed from the Department of Defense to the National Security Council as a senior staff member on January 21, 1969. He was the subject of an applicant-type investigation by this Bureau. While admittedly he has had contact with Soviet nationals the investigation did not disclose at that time any pertinent derogatory information.

The files of this Bureau contain no identifiable information concerning Colonel Robert Pursley.

Sonnenfeldt, aged 42, was detailed to the National Security Council on January 21, 1969, from the Department of State, where he had been employed in various administrative capacities since 1947. An applicant-type investigation disclosed that during mid 1950's and early 1960's he was suspected of

## MEMORANDUM FOR THE ATTORNEY GENERAL

RE: COLONEL ALEXANDER M. HAIG  
TECHNICAL SURVEILLANCE REQUEST

My memorandum of May 12, 1969, reported that Colonel Alexander M. Haig, who is assigned to Dr. Henry A. Kissinger's staff, advised this Bureau that a request for telephone surveillances was being made on the highest authority which involved a matter of most grave and serious consequence to our national security. He stressed that because of its sensitive nature, it should be handled on a need-to-know basis, with no record maintained. In response to his request, you authorized telephone surveillances on Daniel Iva Davidson, Morton H. Halperin, Colonel Robert Pursley, and Helmut Sonnenfeldt.

On May 20, 1969, Colonel Haig presented an additional request advising that it was also being made on the highest authority in connection with the same sensitive matter. He requested that telephone surveillances be placed on Richard M. Moose and Richard Lee Sneider, both of whom are on the staff of the National Security Council.

Mr. Moose is aged 37 and served as a staff member with the National Security Council, Washington, D. C., from August, 1966, to March, 1968. From March, 1968, to January, 1969, he was a member of the research staff of the Institute for Defense Analysis, Arlington, Virginia. Since January, 1969, he has again been serving as a staff member of the National Security Council. Applicant-type investigations by this Bureau in 1966 and in 1969 disclosed no unfavorable information of a security nature concerning him.

RE: MARVIN LEONARD KALB

Pursuant to your request, a telephone surveillance will be placed on captioned individual upon receipt of your written approval.

Kalb is a correspondent in Washington, D. C., for the Columbia Broadcasting System (CBS). He has previously worked abroad for CBS in several countries, including the Soviet Union. [During April, 1967, a Hungarian defector advised that Kalb was a contact for recruitment by Hungarian Intelligence Service; however, contacts with him were discontinued when it was determined that the Soviets had special interest in him and planned to recruit him.] (S)

During interview in October, 1967, by Agents of this Bureau, he readily volunteered information concerning his contacts with Soviet-bloc personnel, but indicated he was not aware that any of them might have had intelligence significance, but if such should occur he would promptly contact the FBI.

Available information indicates that Kalb resides at 3155 Upland Terrace, N. W., Washington, D. C. This Bureau will place a telephone surveillance at his residence upon receipt of your written approval. In view of the sensitive nature of this investigation, no record is being made concerning the coverage and it is requested that this memorandum be returned upon approval.

RE: SPECIAL COVERAGE AT THE REQUEST OF THE WHITE HOUSE

The Honorable H. R. Haldeman, Assistant to the President, has requested that the telephone surveillance on Helmut Sonnenfeldt be reinstated.

Sonnenfeldt is an employee of the U. S. Department of State. You previously approved a telephone surveillance of him on May 12, 1969, which was discontinued on June 20, 1969.

This Bureau is in a position to conduct the necessary telephone surveillance requested by Mr. Haldeman.

Respectfully,

The Attorney General

NOTE:

The Attorney General's letter dated 6/24/75 traces the legal authority to utilize warrantless electronic surveillances; the Attorney General's 5/12/75 letter traces the legal authority for consensual electronic surveillances. The 6/24/75 letter has been released to the press by the Attorney General. On 7/3/75 Mr. Douglas Marvin, Special Assistant to the Attorney General, told SA John W. Dalseg, INTD, that the Attorney General's 5/12/75 letter was sent to Senator Kennedy "without any restrictions" and that it may well appear in some future transcript of Congressional hearings.

The Committee requested data regarding the legal authority for "all forms of electronic surveillance and consensual electronic surveillance" in Appendix A, item 5a. The enclosed material covers warrantless electronic surveillances and consensual electronic surveillances. It does not appear necessary to point out the legal basis for warranted electronic surveillances in Title III of Public Law 70-351.

Appendix B, items 4a and b requested data indicating the original decision to utilize these techniques and data indicating the policies and procedures of the FBI for the utilization of these techniques. The policies and procedures of the FBI for utilization of these techniques are those required by the Attorney General which are set out in the enclosed material. The fact that the FBI utilizes electronic surveillances, with and without consent, is public knowledge and it does not appear necessary to point this out.

Dear Senator Kennedy:

In response to your letter of April 24, 1975, I am presently able to provide you with most of the information you have requested concerning the electronic surveillance activities of federal departments and agencies. The information contained in this letter and the enclosed material relates mainly to electronic surveillance conducted within the United States pursuant to the criminal law enforcement responsibilities of the federal government. It does not include electronic surveillance that may be conducted either in the interests of national security, or outside the United States by federal departments and agencies other than the Department of Justice. As to these latter areas, the Department is still in the process of assembling and reviewing the materials relevant to your request, and we are thus unable at this time to determine what information we may be able to provide. I should note that in several instances your letter requests information that is either not in the possession of this Department or pertains to areas outside its proper jurisdiction. Since I understand that you have sent similar letters to other federal departments and agencies, I expect that you will receive responses from them. Nevertheless, I believe the information contained in this letter and the enclosed material will answer in substantial part the questions you have raised concerning electronic surveillance.

Apart from the area of national security, electronic surveillance conducted within the United States by federal departments and agencies may be divided into two broad

categories: consensual and non-consensual. Consensual electronic surveillance refers to those instances in which one or more parties to the communication is a federal agent, is cooperating with a federal agent, or has consented to the surveillance. The Supreme Court has repeatedly held that the warrant requirement of the Fourth Amendment does not apply to consensual surveillance. See, e.g., United States v. White, 401 U.S. 745 (1971); Lopez v. White, 373 U.S. 427 (1963); Rathbun v. United States, 355 U.S. 107 (1957); On Lee v. United States, 343 U.S. 747 (1952). Congress has also excepted consensual electronic surveillance from the provisions of Title III of the Omnibus Crime Control and Safe Streets Act of 1968, including the requirement of a court order. Thus, sections 2511(a)(c) and (d) of Title 18 of the United States Code provide:

(c) It shall not be unlawful under this chapter for a person acting under color of law to intercept a wire or oral communication, where such person is a party to the communication or one of the parties to the communication has given prior consent to such interception.

(d) It shall not be unlawful under this chapter for a person not acting under color of law to intercept a wire or oral communication where such person is a party to the communication or where one of the parties to the communication has given prior consent to such interception unless such communication is intercepted for the purpose of committing any criminal or tortious act in violation of the Constitution or laws of the United States or of any State or for the purpose of committing any other injurious act.

Although consensual electronic surveillance may thus be conducted without a court order, its use by federal agents has been subject to regulations issued by the Attorney General since 1967. The current regulations are specified in Attorney General Kleindienst's memorandum of October 16, 1972 entitled "Memorandum to the Heads of Executive Departments and Agencies,

Page 3

Hon. Edward M. Kennedy

May 12, 1975

Re: Monitoring Private Conversations with the Consent of a Party," and in a subsequent amending order issued by Attorney General Saxbe. Copies of the memorandum and order are enclosed herein.

In general, all federal agencies and departments are required to obtain advance authorization from either the Assistant Attorney General in charge of the Criminal Division, or Deputy Assistant Attorney General of that Division before any electronic device may be used to overhear, transmit, or record a private conversation, other than a telephone conversation, without the consent of all the parties to that conversation. In exigent circumstances precluding a prior request for authorization -- such as imminent loss of essential evidence or a threat to the immediate safety of an agent or informant -- emergency monitoring may be instituted with the authorization of the head of the responsible department or agency or his designee. The Assistant Attorney General of the Criminal Division, however, must be notified promptly of any such monitoring and of the specific conditions that precluded obtaining prior approval.

The above procedures do not apply to consensual monitoring of telephone conversations. Because they involve the transmission of a participant's voice through a complex and far-reaching network of wires, the common use of party lines and extension telephones, and the possibility of an unseen participant permitting another person to listen on the same extension, telephone conversations have long been thought not to enjoy the same expectation of privacy as face-to-face conversations. For this reason, supervision and control over consensual monitoring of telephone conversations are vested instead in the head of each federal department and agency, who is required to adopt appropriate regulations and procedures on the subject. These regulations usually do not restrict consensual monitoring of telephone conversations in any significant respect. The relevant regulations of the Drug Enforcement Administration are enclosed herein.

Page 4

Hon. Edward M. Kennedy

May 12, 1975

The current regulations issued by the Attorney General also require the head of each federal department and agency to exercise responsibility for the security of all consensual monitoring devices, including the maintenance of current inventories as to amounts, storage, and users of such equipment, and to submit to the Attorney General during July of each year a report containing an inventory of all electronic and mechanical equipment designed for the monitoring of conversations and a brief statement of the results obtained from their use during the prior fiscal year.

All federal departments and agencies having criminal investigative responsibilities are authorized to conduct consensual electronic surveillance. These agencies include, inter-alia, the Bureau of Alcohol, Tobacco and Firearms, the Bureau of Customs, the Department of Agriculture, the Internal Revenue Service, the Federal Bureau of Investigation, the Drug Enforcement Administration, the Postal Service, the Secret Service, the Department of Defense, the Naval Investigative Service, the Immigration and Naturalization Service, and the Department of Interior. The number of consensual uses of electronic surveillance devices authorized by the Department of Justice between 1970 and 1974 is set forth in the attached memoranda. The total annual authorizations were as follows: 1970, 512; 1971, 840; 1972, 1272; 1973, 1484; 1974, 2518. In the first quarter of 1975, the total number of authorizations was 1,125. In March 1975, the total authorized was 461. The above figures, of course, do not include consensual monitoring of telephone conversations. Nor do they include consensual electronic surveillance that may be conducted either outside the United States or in the interests of national security.

Apart from the area of national security and foreign intelligence, non-consensual electronic surveillance within the United States is conducted pursuant to a court order. Under Title III of the Omnibus Crime Control and Safe Streets Act of 1968, the Attorney General may authorize an application to a federal judge of a competent jurisdiction, who may grant an order approving the interception of wire or oral

Page 5

communications "by the Federal Bureau of Investigation, or a Federal agency having responsibility for the investigation of the offense as to which the application is made," when such interception may provide or has provided evidence of certain specific offenses enumerated in section 2516 of Title 18 of the United States Code. The agencies having investigative responsibilities under section 2516, and hence authority to conduct non-consensual electronic surveillance, are the Federal Bureau of Investigation, the Bureau of Customs, the Drug Enforcement Administration, the Secret Service, the Internal Revenue Service, the Bureau of Alcohol, Tobacco and Firearms, and the Postal Service.

The administrative procedures and guidelines governing electronic surveillance under Title III are contained in the Manual for Conduct of Electronic Surveillance, a copy of which is enclosed. The procedures specified in the Manual apply to every federal department or agency authorized to conduct electronic surveillance under Title III: All surveillance authorized under Title III is conducted within the United States or Puerto Rico; Title III has no application in foreign countries. See 18 U.S.C. 2516(1).

The extent of electronic surveillance conducted by the federal government pursuant to Title III between 1971 and 1974 is contained in the reports issued by the Administrative Office of The United States Courts, as required by 18 U.S.C. 2519(3). Copies of those reports are enclosed with this letter. The number of electronic surveillances authorized under Title III so far in 1975 is 28. The Federal Bureau of Investigation requested 27 of those surveillances, including 3 extensions. The Drug Enforcement Administration requested the remaining 1.

With respect to electronic surveillance conducted outside the United States, I can provide you with information relating only to the policy and practice of the Depart-

ment of Justice. With the exception of the Drug Enforcement Administration, no division, bureau, or agency of this Department conducts electronic surveillance outside the United States for any purpose, including national security. The Drug Enforcement Administration does conduct electronic surveillance outside the United States in certain limited circumstances. This surveillance is presently undertaken only on a bilateral basis, that is, with the approval and participation of the foreign country involved. It is my understanding, however, that a predecessor organization of DEA did conduct non-consensual electronic surveillance unilaterally in at least one instance occurring in 1973. The surveillance was initiated in connection with that organization's criminal law enforcement responsibilities and was designed to obtain information concerning international drug traffickers. The subject of the surveillance was a foreign national, and not an American citizen or an alien resident of the United States.

Under its current policy, DEA does not conduct any non-consensual electronic surveillance abroad without the approval and participation of the foreign country. In almost all cases, the surveillance is actually conducted by law enforcement officials of the foreign country, rather than by DEA, and is not initiated as the result of a request by DEA. I am informed that the instances in which DEA has been responsible in any way for electronic surveillance conducted abroad are exceedingly few, and that in none of these was the subject of the surveillance an American citizen or an alien resident of the United States.

Under existing regulations, the approval of the U.S. Chief of Mission in the host country is required before DEA may conduct, or request a foreign country to conduct, non-consensual electronic surveillance outside the United States. In addition, I have ordered that henceforth DEA shall obtain the prior approval of the Attorney General before conducting, or requesting anyone else to conduct, non-consensual electronic surveillance outside the United States where the subject of the surveillance is an American citizen or alien resi-

Page 7

dent of the United States. Although the approval of the Attorney General has not been required previously, as indicated above there have apparently been no instances in which an American citizen or resident has been the subject of non-consensual electronic surveillance conducted abroad by DEA or initiated at its request.

On occasion DEA has also conducted consensual electronic surveillance outside the United States, usually involving the use of a voice transmitter concealed on an informant, a DEA agent, or a law enforcement officer of the host country. Under DEA's current policy, this transmitter device is used with the specific approval and participation of the foreign country. Again, in almost all cases, the surveillance is actually conducted by a law enforcement official of the foreign country, rather than by DEA, and DEA's involvement is in general limited to supplying the equipment necessary to conduct the surveillance. So far as DEA can determine, no American citizen or alien resident of the United States has been the subject of consensual electronic surveillance conducted abroad through use of this device by DEA, or by a foreign country at DEA's request.

I have ordered that whenever practicable DEA shall obtain the advance approval of the Assistant Attorney General in charge of the Criminal Division, or Deputy Assistant Attorney General of that Division, before conducting, or requesting anyone else to conduct, consensual electronic surveillance outside the United States where the subject of the surveillance is an American citizen or alien resident of the United States. Where circumstances preclude a prior request for authorization, DEA may conduct the surveillance, but shall notify promptly the Assistant Attorney General in charge of the Criminal Division of the surveillance and the specific conditions that precluded obtaining prior approval. This procedure parallels that outlined in Attorney General Kleindienst's memorandum of October 16, 1972 governing consensual electronic surveillance within the United States by federal departments and agencies. It applies, of course, only to

Page 8

Hon. Edward M. Kennedy

private conversations, other than telephone conversations, that are sought to be monitored without the consent of all the parties to that conversation. For the reasons mentioned earlier, prior approval for consensual monitoring of telephone conversations is not required.

DEA has also used certain electronic devices abroad in order to track the location of drug shipments. These devices do not transmit, overhear, or record private conversations, but rather merely emit signals which indicate the location of the device.

DEA's policy concerning electronic surveillance has also been described in its response to your letter of April 24 to Mr. Bartels. The remaining divisions, bureaus, and agencies within the Department do not conduct electronic surveillance of any kind outside the United States.

I trust that the information I have furnished will assist your subcommittee in its inquiry concerning the practices and procedures of the federal agencies in the area of electronic surveillance.

With best wishes,

Sincerely,

Dear Senator Kennedy:

In my letter to you of May 12, I stated that the Department was in the process of assembling the materials relevant to your inquiry regarding electronic surveillance conducted within the United States in the interests of national security and foreign intelligence. Pursuant to a review of this matter, I am able to provide you with the following information.

Since 1940 by directives of the President, the Attorney General has been vested with responsibility over electronic surveillance conducted within the United States in the interests of national security and foreign intelligence. This surveillance is authorized pursuant to the personal approval of the Attorney General, rather than by court order. Based on an examination of the relevant precedents, it is the position of the Department of Justice that the Executive may conduct electronic surveillance in the interests of national security and foreign intelligence, and in aid of his conduct of the nation's foreign affairs, without obtaining a judicial warrant. This has been the position of the Department of Justice for more than three decades and is supported by historical practice as well as judicial decision. The only two Courts of Appeals to address the issue, the Third Circuit and the Fifth Circuit, have held that the warrant requirement of the Fourth Amendment does not apply in the area of national security and foreign intelligence and that under the Constitution the President has the authority to conduct electronic surveillance without a court order as part of his diplomatic and military or commander-in-chief functions. See United States v. Butenko (Appeal of Ivanov), 494 F.2d 593 (3rd Cir. 1974) (en banc), cert. denied sub nom.

ENCLOSURE

Ivanov v. United States 419 U.S. 881 (1974); United States v. Brown, 484 F.2d 418 (5th Cir. 1973), cert. denied, 415 U.S. 960 (1974). In Title III of the Omnibus Crime Control and Safe Streets Act of 1968, Congress also explicitly disclaimed any attempt to place limitations on the President's authority in this area. 18 U.S.C. § 2511(3). The Supreme Court has, of course, expressly left open the question whether the warrant requirement applies to electronic surveillance conducted for national security and foreign intelligence purposes. In United States v. United States District Court, 407 U.S. 297, 308-9 (1973), however, the Court, while holding that the domestic security area was subject to the warrant requirement, was careful to note that "the instant case requires no judgment with respect to the activities of foreign powers, within or without this country. . . . There is no evidence of any involvement, directly or indirectly, of a foreign power." Moreover, in the Butenko case, although the United States prevailed in the Third Circuit, the Department acquiesced in the petition for certiorari. Nevertheless, the Court denied certiorari, thus leaving undisturbed the Third Circuit's decision upholding the authority of the Executive to conduct electronic surveillance without a court order where national security and foreign intelligence is involved.

Under the standards and procedures established by the President, the personal approval of the Attorney General is required before any non-consensual electronic surveillance may be instituted within the United States without a judicial warrant. All requests for surveillance must be made in writing by the Director of the Federal Bureau of Investigation and must set forth the relevant factual circumstances that justify the proposed surveillance. Both the agency and the Presidential appointee initiating the request must be identified. Requests from the Director are examined by a special review group which I have established within the Office of the Attorney General. Authorization will not be granted unless the Attorney General has satisfied himself that the requested electronic surveillance is necessary for national security or foreign intelligence purposes important to national security.

In addition, the Attorney General must be satisfied that the subject of the surveillance is either assisting a foreign

power or foreign-based political group, or plans unlawful activity directed against a foreign power or foreign-based political group. Finally, he must be satisfied that the minimum physical intrusion necessary to obtain the information will be used.

All authorizations are for a period of ninety days or less, and the specific approval of the Attorney General is again required for continuation of the surveillance beyond that period. The Attorney General has also been directed to review all electronic surveillance on a regular basis to ensure that the aforementioned criteria are satisfied. Pursuant to the mandate of United States v. United States District Court, electronic surveillance without a judicial warrant is not conducted where there is no foreign involvement.

All electronic surveillance related to national security and foreign intelligence within the United States is conducted by the Federal Bureau of Investigation. The Bureau has established strict internal review procedures with regard to all electronic surveillance activities.

The extent of telephone and microphone surveillance conducted within the United States in the interests of national security and foreign intelligence was last disclosed in 1973. On a comparable basis, the extent of such surveillance between 1969 and May 1975 is set forth in the attached memoranda. The total number of subjects of telephone surveillance during that period is as follows: 1969, 113; 1970, 90; 1971, 87; 1972, 102; 1973, 116; 1974, 148. These figures do not, of course, indicate the number of persons whose conversations were intercepted, but rather only the number of subjects to whom the surveillance was directed. The total number of subjects of microphone surveillance during that period was as follows: 1969, 14; 1970, 19; 1971, 16; 1972, 31; 1973, 38; 1974, 32. Again, these figures do not indicate the number of persons whose conversations were intercepted, but rather the number of subjects to whom the surveillance was directed. Moreover, I should further note that the above figures are duplicative to an extent since in several cases the same subject was under both telephone and microphone surveillance.

The total installations of telephone and microphone surveillances during the above periods would, of course, exceed

these figures by varying margins. On occasion, the subject under surveillance moved to a new location, thus necessitating a re-installation of the surveillance at the new address. On other occasions, the surveillance was discontinued because the subject left the premises for an extended period, but was later re-instituted when the subject returned. In still other cases, the surveillance was discontinued for a period as part of the Department's continuing review and re-evaluation of all electronic surveillance activities. The subsequent re-institution of the surveillance pursuant to a new approval by the Attorney General would be counted as an additional installation. For the above reasons, the number of installations of telephone and microphone surveillances is greater than the number of subjects of such surveillance, and would thus not provide an accurate basis for evaluating the extent of electronic surveillance. Nevertheless, pursuant to your inquiry, I am including in the attached memoranda the total number of installations of electronic surveillance devices for both telephone and microphones.

I am also enclosing the maximum and minimum number of telephone and microphone surveillances installed and in operation for each month between November 1972 and April 1975. These figures are based on data compiled on a daily basis and reflect installations and discontinuances of electronic surveillance devices. The records of daily counts were initiated in November 1972. Comparable information is not available for prior periods. As these figures indicate, the maximum number of telephone surveillances in operation at any time during 1973 was 93; the minimum number in operation that year was 65. The maximum number of microphone surveillances in operation during 1973 was 22; the minimum was 10. In 1974, the maximum number of telephone surveillances in operation was 106; the minimum number in operation was 75. Microphone surveillances in operation during that period ranged from a maximum of 21 to a minimum of 10. During the first four and a half months of 1975, the maximum number of telephone surveillances in operation at any time was 91; the minimum was 67. The maximum number of microphone surveillances in operation at any time during that period was 20; the minimum was 9. On April 1, 1975, there were 75 telephone and 15 microphone surveillances in operation.

I trust that the information supplied to date is of assistance to your subcommittee in its inquiry into the prac-

tices of federal agencies in this area. I am also providing the above information to Congressman Rodino, as Chairman of the House Committee on the Judiciary, and to Senator Church, as Chairman of the Senate Select Committee to Study Governmental Operations with Respect to Intelligence Activities.

Enclosed for your approval and forwarding to the Committee is the original of a memorandum which is in response to a request initiated by the SSC to the U. S. Postal Service concerning the identity of all mail covers placed by the FBI since 1960. After subsequent negotiations between the Department, SSC Staff Members and FBI personnel, it was directed by Deputy Attorney General Harold R. Tyler that the FBI respond to the original request without the necessity of a letter to the Attorney General from the Chairman of the SSC.

A copy of this memorandum is being furnished for your records.

Reference is made to your request to the U. S. Postal Service concerning the identity of all mail covers placed by the FBI since 1960. Mr. John Elliff, SEC Staff Member, advised that the Postal Service had responded that the request should be made to the FBI. Subsequently Deputy Attorney General Harold R. Tyler directed that a response should be made without receipt by the Federal Bureau of Investigation of a separate formal request.

The following data is furnished in response to this request. Due to privacy considerations, sensitive investigations and those matters the revelation of which could adversely affect the foreign relations of the United States, we are not making known the identities of the individuals, organizations, or establishments upon whom mail covers have been placed.

The record system maintained by the FBI relating to the investigative technique of mail covers does not permit a retrieval of the entire data which was requested without a massive, time-consuming research effort on a file-by-file basis. While each mail cover implemented by the FBI is noted in the subject's case file, only a limited categorical record as to mail covers is maintained for statistical purposes. The data being furnished is derived from this record system. This record system was maintained for in-house use and includes only those mail covers requested by the Intelligence Division, and accounts for all national security mail cover requests emanating from the FBI as well as some fugitive mail cover requests. Beginning May 1, 1975, the system was enlarged to include all mail covers requested by

the FBI, specifically those handled in the Special Investigative and General Investigative Divisions. These two Divisions utilize fugitive and criminal type mail covers only.

The record system is divided into two parts. One deals with those that are authorized by FBI Headquarters to be requested of the Postal Service as well as mail covers already in place. The second part deals with those that have been terminated. The latter category is maintained for a two-year period following the last termination date. The records are purged quarterly to eliminate those dated beyond two years. Consequently the statistical data furnished denotes only those mail covers from 1973 to present that were authorized and with the exception of those added since May 1, 1975, relate to investigations supervised only by the Intelligence Division.

The number of mail covers is derived based upon the number of addresses covered. Therefore, an individual who is the subject of an investigation who possess two addresses at which he might receive mail could have a mail cover placed at both addresses. This would count as two mail covers. If he moves to a new location and a cover is requested there, this would be a third.

The mail cover statistics are broken down to denote the three categories which the Postal Service Manual prescribes as available to law enforcement agencies. (Published in Federal Register, Vol. 40, Number 49-Wednesday, March 12, 1975.)

The Postal Service Manual allows mail covers to be utilized by law enforcement agencies in the following cases. Criminal mail covers are used to obtain information regarding the commission or attempted commission of a crime. Fugitive mail covers are utilized to assist in locating fugitives. Mail covers are also allowed in situations involving the national security.

**Request Pertaining to Identity of All  
Mail Covers Placed by the FBI Since 1960**

The following reflect the number of mail covers placed since 1973, through June 17, 1975.

Criminal - 1  
Fugitive - 156  
National Security - 286

A numerical breakdown of the national security category of mail covers is as follows:

Incidental to the investigations of Marxist-Leninist, Maoist or Trotskyist organizations and individuals whose activities are aimed at achieving the overthrow of the United States Government or any of its political subdivisions by whatever means necessary, including force or violence, the following mail covers were used. Seventy-two mail covers were utilized as to organizations, six of which are currently in effect. Thirty-two mail covers were utilized as to individuals who were leaders, members or associates of the above, seven of which are in effect. Sixteen mail covers were placed on publications operated by the above organizations, three of which are in effect.

Incidental to the investigation of organizations which engage in separatist activities aimed at achieving the overthrow of the United States or any of its political subdivision by whatever means necessary, including force or violence, the following mail covers were used. Five mail covers were utilized as to organizations, none of which are currently in effect. Seven mail covers were utilized as to individuals who were leaders, members or associates of the above organization, one of which is currently in effect.

One mail cover was placed incidental to investigation of a domestic organization which engaged in terrorist activity aimed at the overthrow of the United States Government or its political subdivisions. This mail cover is no longer in effect. One mail cover was utilized as to a member of this organization. It is no longer in effect.

Two mail covers were placed incidental to investigation of an organization which through its violent acts has attempted to affect adversely relations between the United States and other foreign powers. These mail covers are no longer in effect.

Incidental to the investigation of organizations which are affiliated with or directly controlled by a foreign political organization and which promote as a matter of policy terroristic acts against persons and property the following mail covers were used. Seven mail covers were utilized as to such organizations, four of which are currently in effect. Fifty-eight mail covers were utilized as to individuals who were leaders, members or associates of the above organizations. Eleven of these are currently in effect.

Sixty-eight mail covers were placed incidental to counterintelligence investigations of individuals who are foreign officials, known or suspected intelligence officers, or known or suspected intelligence agents working at the behest of foreign intelligence services. Twenty-three of these are currently in effect. (S)

Seventeen mail covers were placed on foreign diplomatic establishments incidental to counterintelligence investigations. Fourteen of these are currently in effect. (S)

NOTE:

Reference is made to Legal Counsel memoranda to Mr. J. B. Adams dated 5/23/75 and 6/12/75 which set out the request upon which this response is predicated. The statistics regarding the categories of mail covers noted in this memorandum were derived by a review of each 3 x 5 card maintained by the Special Records and Related Research (SRRR) Unit on requested mail covers. These cards are maintained alphabetically by each field office. They are not broken down by either type of mail covers or by the categories in which they are presented in this memorandum. To obtain the statistics set out in this memorandum it was necessary to duplicate all the records, categorize by the three types, of mail covers and then subdivide the national security mail covers into general categories. The data contained on each card includes; subject, file number, time period, address, and brief characterization. In some instances supervisors within the INTD who were familiar with the subjects were contacted to obtain information necessary to categorize.

As explained in the memorandum, this record was kept in-house for count purposes only and therefore required time to reassemble the data in the form presented.

It should be noted this record may not contain every mail cover utilized by the FBI within the time period the system is designed to cover. This is because the assembly of this data is dependent upon notification by the substantive case supervisor and it is possible such notification has been inadvertantly omitted on a particular case. This qualification is made to advise as to the limitation of the documents upon which the memorandum is based.

Preparation of this memorandum was coordinated with Mr. John Russell, General Investigative, and John McHale, Special Investigative, as to whether these Division's possess records beyond those maintained within INTD. It was determined that they did not.

SUBJECT: SENSTUDY 75

By memorandum dated May 23, 1975, you were advised that captioned Committee had directed a letter to the U. S. Postal Service requesting information concerning mail covers initiated by the Federal Bureau of Investigation. The Committee was referred by Postal Service to the Bureau. Mr. John Elliff, Task Force Director, was advised to direct a letter over the Chairman's signature requesting the information.

On May 30, 1975, we recontacted Mr. Elliff again asking that a letter be directed to the Bureau asking for the information. He was instructed that we had been gathering the requested information, however; prior to our responding, we should receive a confirmation from the Committee. Present at this discussion was K. William O'Connor, Special Counsel to the Deputy Attorney General. The same information was conveyed by Special Agent Paul V. Daly to Paul Wallach, Staff Member of the Committee, who had been making the mail cover inquiries. Mr. Wallach indicated that he would correspond to the Bureau in accordance with this request.

K. William O'Connor advised subsequently that the Department had received a letter from Wallach to the Department June 7, 1975, containing the request. Mr. O'Connor stated that this was not in accordance with our discussion with the Committee and he was to convey the fact that the request should be over the Chairman's signature.

Memo to Mr. Adams from Legal Counsel  
SENSTUDY 75

On June 11, 1975, Mike Shaheen of the Department, who is working with K. William O'Connor in handling responses to the captioned Committee, informed Special Agent Paul V. Daly at 5:30 p.m. that we should respond to the request concerning mail covers without waiting for a letter from the Committee over the Chairman's signature. He advised that this instruction was received <sup>from</sup> by Deputy Attorney General, Harold R. Tyler.

Tyler distinguished this postal request from others by stating that inasmuch as the Committee Chairman had authorized the Committee to inquire concerning mail covers in a letter to U. S. Postal Services, it should not be necessary for them to write a subsequent letter.

The requests to the Department were conveyed to the Section Chief of the Intelligence Division, W. O. Cregar, on June 11, 1975.

RECOMMENDATION:

That the Intelligence Division expeditiously prepare the necessary responses concerning mail covers.

COMMITTEE REQUESTS

*Handwritten initials/signature*

*Handwritten initials/signature*

The purpose of this memorandum is to set forth in summary form the requests we have received from various Committees in Congress and the status of our replies.

Senate Select Committee on Intelligence Activities (Church's Committee)

Responses to the Senate Select Committee request of 4-30-75, have been completed and delivered to the Committee with the approval of the Department. This request pertained to sections of Manual of Rules and Regulations, Indexing information, classification materials, and Bureau forms.

By letter dated 5-14-75, we received a lengthy request from the Committee which pertains to among other things, information concerning all wiretaps including their location and other requests which would amount to a complete reconstruction of Bureau files, as well as Inspection surveys for ten offices. During a meeting on May 30, 1975, of the Committee, and the Department, this particular request was modified in some areas to alleviate possible problems in preparing the responses. Responses to many of the questions asked have been prepared, approved, and delivered.

Legal Counsel to Mr. Adams, Memo  
Re: STATUS OF RESPONSES TO CONGRESSIONAL COMMITTEE REQUESTS

There remains however, a substantial amount of work to be done.

Letter dated May 27, 1975, contained a request that FBI documents in the custody of National Archives concerning the Warren Commission be made available to the Committee for review. We are in the process of reviewing the material requested so that a proper response may be prepared.

*sent thru  
6-26*

By letter dated May 28, 1975, the Committee requested that certain Senators on the Select Committee be given access to any information concerning them in FBI files. This request is being handled using the same guidelines as Freedom of Information Act requests and material is being gathered. The Department has written a letter to the Committee regarding this request asking that a discussion be held.

By letter dated 6-9-75, the Committee requested appendices a through e of the Peterson report on COINTELPRO. After discussion with the Department, we made available by letter dated 6-18-75, copies of appendices a through e which have been excised and have been reviewed by Committee staff members.

By letter dated 6-11-75, we received a request to give the Committee access to a memorandum written by the late Director, J. Edgar Hoover, dated 5-9-62, which relates to a discussion he had with former Attorney General, Robert F. Kennedy. This particular document has been located and is a discussion among other things of the alleged CIA plot to assassinate Castro. A response has been prepared and delivered to the Department.

By letter 6-13-75, we were requested to furnish complete information concerning mail openings and mail covers. Material is being gathered for a response.

By letter dated 6-18-75, we were requested to make available for the Committee's possession, documents concerning the Giancana CIA involvement in a plot to assassinate Castro. These documents were previously reviewed by the Committee in response to their request of 5-12-75. The Committee now wants possession of those documents.

Re: STATUS OF RESPONSES TO CONGRESSIONAL COMMITTEE REQUESTS

Subcommittee on Government Information and Individual Rights (Abzug's Committee)

By letter dated June 10 and June 16, 1975, we have been requested to furnish complete information concerning practices and procedures, etc., concerning electronic surveillances. Responses have been prepared and furnished the Department.

By letter dated 6-19-75 which was furnished us by the Department 6-24-75, we were requested to furnish the names and addresses of FBI personnel who served on the Interagency Evaluation Committee between 1970 and 1973.

#### Hearings

We are scheduled to testify ~~7-9-75~~, before the Senate Subcommittee on Internal Security of the Judiciary on Terrorism. Testimony for this hearing has been prepared by the Intelligence Division.

We are in receipt of a request to arrange testimony before the Subcommittee on Postal Facilities, Mail, and Labor Management of the Post Office and Civil Service Committee concerning mail covers and mail openings. We are to meet with the Post Office Committee to arrange this testimony.

The Director along with Kevin Maroney, Deputy Assistant Attorney General, is scheduled to appear before the Subcommittee on Courts, Civil Liberties, and the Administration of Justice of the Judiciary Committee (Kastenmier) to testify concerning electronic surveillances on 6-26-75.

The following Committees have indicated Bureau testimony in the near future:

The Senate Judiciary Subcommittee on Constitutional Rights (Tunney's Committee): Topic: S. 1427 - S. 1428 (Criminal Justice legislation); Briefing book has been prepared concerning this legislation.

Legal Counsel to Adams, Memo

Re: STATUS OF RESPONSES TO CONGRESSIONAL COMMITTEE REQUESTS

House Judiciary Committee on Civil and Constitutional Rights (Edward's Committee); Topic: H. R. 61 and H. R. 62 (House version of S. 1427 and S. 1428 (Criminal Justice Legislation)).

Senate Select Committee on Intelligence Activities; Topic: Bureau legal authority to conduct domestic and counter-intelligence activities. Tentative testimony is scheduled for late June or early July. We will be furnished additional details by the Committee as to the various topics to be covered during this testimony.

MEMORANDUM FOR: See Distribution

SUBJECT: Records Contained in the Community  
Central Index Through 15 June 1975

1. Forwarded with this memorandum is the current record contained in the Community Central Index of material furnished the Senate Select Committee by U.S. Intelligence Agencies. As I noted in my memorandum of 3 July, the number of records in-put to the Index has more than tripled since the 29 May printing. In addition to the document forwarded with this memorandum, a separate codeword listing of responses has been prepared and with appropriate clearances copies are available upon request.

2. Tab A of the Report is formatted to list by Agency alphabetic order the requests received, and immediately following the request is an identification of the response which was provided. When it has been possible, each request is further detailed by question number. The columns at the right are for administrative control only.

REC-107 62-116375-372

3. The format of Tab B is again Key Word, and as before the request and response items will appear under each key word noted on the in-put form.

4. Suggested improvements in format are welcome. JUL 16 1975

Pursuant to Section III(E) of the notification attached to the Committee's letter of June 27, 1975, I hereby request that a complete, unexcised set of the A through E summaries of COINTELPRO cases prepared for the so-called Peterson Committee be delivered to our offices no later than Thursday, July 10, 1975.

As stated in the notification, the Committee's receipt of these summaries will form the basis of further requests for information and documents. It is impossible to use the excised version of the summaries for this purpose.

Since a thorough analysis of the summaries requires that the volumes be disassembled, and since they must be available to staff members working evenings and weekends, it is necessary to have the summaries here at our offices.

Thank you for your cooperation in this matter.

Dear Mr. O'Connor:

The purpose of this letter is to set down in one place the present status of the responses to the Committee's requests regarding notional organizations.

Your letter of June 12, 1975, transmitted only one memorandum in response to Appendix C, Part III, Item 24, of the Committee's May 14, 1975 request. We would appreciate your advice whether any additional materials exist which are responsive to this portion of our request, and, if so, when they will be supplied.

With respect to your July 7, 1975 response to Appendix C, Part III, Items 25 (a) and (b), we will need to examine all of the materials which provided the basis for the preparation of the Bureau's July 2, 1975 summary. In addition, we will need to examine the materials which were summarized in Item 2 under the heading "Types of Activity" in the "Exhibit K" attachment to the so-called Peterson Committee report, which I examined on July 8, 1975.

I would like to assure you that pursuant to your request, we have seriously considered the Bureau's suggestion for an oral briefing on this subject. We have concluded, however, that such a procedure would be helpful only after we have had the opportunity to study the requested materials which bear upon this subject. I might add that in view of the sensitivity of some of this material, we would certainly be willing to review at FBI Headquarters whichever of the documents pertain to sensitive ongoing Bureau operations.

ENCLOSURE

Finally, I would appreciate your supplying us with whatever materials exist on the general subject of notional, fictitious, and cover organizations (political, commercial or other), insofar as such materials relate to policies, procedures, and legal authority questions regarding the use of this technique in connection with intelligence, counter-intelligence, and internal security operations. Additional specific questions with respect to this technique are contained in Part III, Section G, of the notification which was submitted with the Committee's June 27, 1975 letter to the Attorney General.

Your cooperation is appreciated.

Dear Mr. O'Connor:

As indicated in the enclosure to the Committee's July 9, 1975 letter to the Attorney General, we are still awaiting several requested items which relate to the relationship between the FBI and the CIA.

Although an FBI file search is presumably underway to locate all items which would be responsive to that section of the Committee's request, we would appreciate receiving as soon as possible, as a partial response, all of the items bearing on this subject which were specifically identified in the attachment to the Committee's May 14, 1975 request, as well as the exchange of correspondence between the FBI and the CIA which occurred on March 11 and 20, 1970, and which related to domestic intelligence collection.

Finally, we would appreciate your advice concerning the nature of [redacted] and [redacted] which are (S) identified in the above-referenced March 20, 1970 letter from Director Helms to Director Hoover.

Dear Mr. O'Connor:

As indicated in the enclosure to the Committee's July 9, 1975 letter to the Attorney General, we are still awaiting certain items previously requested which pertain to the FBI's intelligence activities with respect to the Ku Klux Klan. In order that we can proceed expeditiously with our inquiry without awaiting whatever length of time it might take for the Bureau to conclude its search, we would appreciate it if you would provide the following specific materials as soon as possible, even though we will understand them to be in only partial response to this area of our request:

1. All memoranda and any other materials prepared in or by the General Investigative Division, the Domestic Intelligence Division, and the Inspection Division, which relate to, are referred to, or alluded to in, or portions of which are summarized or described in, the July 30, 1964, memorandum captioned "Investigation of Ku Klux Klan and Other Hate Groups" from J. H. Gale to Mr. Tolson. (See attachment to your letter of June 17, 1975.)

At 2:50 p. m. on July 10, 1975, K. William O'Connor called me and advised that Douglas Marvin, Special Assistant to the Attorney General, has requested a briefing for the Attorney General regarding the status of responses to inquiries by the Senate Select Committee. He said that the briefing would be scheduled for the afternoon of Tuesday, July 15, 1975, if possible. The briefing will prepare the Attorney General for his appearance before the Senate Select Committee during the latter part of that week to discuss the status of responses. It is noted that we have received a written request from the Committee for the Director and the Attorney General to appear to discuss this matter in Executive Session.

In anticipation of such a request from the Attorney General, we have caused a review to be undertaken and a status report prepared as to all Bureau responses to Senate Select Committee inquiries plus a report as to items actually delivered to the Committee. The distinction is that some materials prepared by the Bureau were delivered to the Department and have not been forwarded to the Committee.

RECOMMENDATIONS:

1. That the Intelligence Division expedite preparation of the status report for information of the Director and to prepare for briefing the Attorney General in the afternoon of July 15, 1975.

SUBJECT: STATUS OF RESPONSES TO CONGRESSIONAL  
COMMITTEE REQUESTS

*Holly BA*

The purpose of this memorandum is to set forth in summary form the requests we have received from various Committees in Congress and the status of our replies.

Senate Select Committee  
On Intelligence Activities (Church's Committee)

By letter dated 5-14-75, we received a lengthy request from the Committee which pertains to among other things, information concerning all wiretaps including their reconstruction of Bureau files, as well as Inspection surveys for ten offices. During a meeting on May 30, 1975, of the Committee, and the Department, this particular request was modified in some areas to alleviate possible problems in preparing the responses. Responses to many of the questions asked have been prepared, approved, and delivered. There remains, however, a substantial amount of work to be done.

Letter dated May 27, 1975, contained a request that FBI documents in the custody of National Archives concerning the Warren Commission be made available to the Committee for review. We have furnished a response to this request.

By letter dated May 28, 1975, the Committee requested that certain Senators on the Select Committee be given access to any information concerning them in FBI files. This request is being handled using the same guidelines as Freedom of Information Act requests and material is being gathered. The Department has written a letter to the Committee regarding this request, asking that a discussion be held.

Legal Counsel to Mr. Adams, Memo  
Re: STATUS OF RESPONSES TO CONGRESSIONAL COMMITTEE REQUESTS

By letter 6-13-75, we were requested to furnish complete information concerning mail openings and mail covers. Material is being gathered for a response.

By letter dated 6-18-75, we were requested to make available for the Committee's possession, documents concerning the Giancana CIA involvement in a plot to assassinate Castro. These documents were previously reviewed by the Committee in response to their request of 5-12-75. The Committee was furnished these documents by the Department.

By letter dated 6-27-75, we received a lengthy request for information concerning alleged abuses.

Subcommittee on Government Information and Individual Rights (Abzug's Committee)

By letter dated 6-19-75 which was furnished us by the Department 6-24-75, we were requested to furnish the names and addresses of FBI personnel who served on the Interagency Evaluation Committee between 1970 and 1973. A response has been prepared and is awaiting Bureau approval.

Hearings

We are scheduled to testify 7-9 -75 before the Senate Subcommittee on Internal Security of the Judiciary on Terrorism. Testimony for this hearing has been prepared by the Intelligence Division. *(Postponed) Jma*

We are in receipt of a request to arrange testimony before the Subcommittee on Postal Fees, Mail and Label Management of the Post Office and Civil Service Committee concerning mail covers and mail openings. Testimony is scheduled for 7-15-75.

The Senate Judiciary Subcommittee on Constitutional Rights (Tunney's Committee): Topic: S. 1427 - S. 1428 (Criminal Justice legislation); Briefing book has been prepared concerning this legislation. Testimony tentatively scheduled for between July 14, and July 17, 1975.

House Judiciary Committee on Civil and Constitutional Rights (Edwards Committee); Topic: H. R. 61 and H. R. 62 (House version of S. 1427) and S. 1428 (Criminal Justice Legislation). Testimony tentatively scheduled for between July 14, and July 17, 1975.

Legal Counsel to Mr. Adams, Memo  
Re: STATUS OF RESPONSES TO CONGRESSIONAL COMMITTEE REQUESTS

The following Committee has indicated Bureau testimony in the near future.

Senate Select Committee on Intelligence Activities;  
Topic: Bureau legal authority to conduct domestic and counter-intelligence activities. Tentative testimony is scheduled for early July. We will be furnished additional details by the Committee as to the various topics to be covered during this testimony.

Dear Mr. and Mrs. Schaffer:

It has been brought to my attention that the Committee desires to have certain testimony relating to your relationship to the FBI for purposes of its investigation currently underway.

This letter is to assure that Mr. Charles Kirbow, my official designee on the Committee Minority Staff, has been appointed to conduct this part of the inquiry and any interview or questioning before the Committee in connection with this matter. The conduct of the interview, testimony, and any other matters will be handled by Mr. Kirbow in accordance with the Rules which he has furnished you. Mr. Kirbow has my complete confidence in this matter.

Dear Mr. Schaffer:

I enjoyed our phone conversation of last week in connection with the Committee's interest in your former relationship with the FBI. I am enclosing certain documents that I discussed with you at the time. Additionally, the letter from Senator Tower to you is enclosed.

The Committee would like you and Mrs. Schaffer to (return for the purpose of giving a sworn statement) in connection with your former association with the FBI. If either Saturday, June 28, 1975, or Saturday, July 12, 1975, is convenient to you, I would appreciate your calling me at my office to confirm the date, time, and place.

I believe that your presence will be required for approximately two hours. However, I would appreciate your appearing 30-45 minutes before in order to allow us to discuss preliminary information that the Committee desires.

I understand the problems that such an appearance may create for you or your wife in relation with your present employment and in accordance with the Rules of the Committee, (your appearance will not be made known to anyone without your permission nor will any publicity in connection with your appearance be allowed.) As you will also note from the (Rules you may not, without your permission, be photographed or in any way interviewed by the press in connection with your appearance before the Committee.)

In this instance, it is expected that the Rules allowing for sworn testimony before one or more Senators will be the procedure adopted and your testimony will not be required before the full Committee.

Please feel free to call me if you have any questions concerning this matter or anything else in connection with your appearance before the Committee.

Sincerely,

Charles Kirbow

The documents enclosed in KIRBOW's letter were copies of JOHN CREWDSON's original "New York Times" article of 2/16/75 and the 3/6/75 article of "WIN" magazine. The Bureau is in possession of both of these articles.

Both SCHAFERS felt reassured by the expressions and tone of the attached letters, enough to be willing to again travel to Washington, D.C. on 6/28/75.

On 7/1/75, the SCHAFERS advised that they had traveled to Washington, D.C., on Saturday, 6/28/75, and were interviewed in private by KIRBOW and MICHAEL EPSTEIN, both staff members of the Senate Select Committee to Study Governmental Operations with Respect to Intelligence Activities. It was a short interview wherein KIRBOW solicited the general unsworn statements of the SCHAFERS regarding the allegations against the FBI of JOE BURTON. KIRBOW stated that he believed BURTON was a fool and was probably motivated by self interest in his allegations. After hearing the SCHAFERS' general statements contradictory to BURTON's allegations, KIRBOW said that they confirm his impression of BURTON. The SCHAFERS were important to the Committee's inquiries in characterizing BURTON, according to KIRBOW. The SCHAFERS did not go into detail regarding their radical activities or relationship with the FBI.

KIRBOW said the SCHAFERS' statements would remain confidential and would not be leaked to the press. KIRBOW said he did not expect the SCHAFERS to be asked or subpoenaed to testify openly before the full Committee.

By memorandum dated 6/10/75, I advised that on 6/7/75, captioned individuals, former New Left informants who were developed and directed by SA Gary M. Laturno of this Division while assigned to the New Orleans Office, contacted SA Laturno to advise they were in Washington, D. C., to confer with staff members of the Senate Select Committee (SENSTUDY).

On 6/28/75, captioned individuals again contacted SA Laturno. They advised that on 6/7/75, they met SENSTUDY staff members but declined to confer with them regarding their service with the FBI. They explained they were apprehensive regarding the appearance and behavior of the staff members, for they looked and acted like a group of "movement" radicals. On 6/28/75, they met with one Charles Kirbow, an aide to Senator John G. Tower (R-Texas) who is Vice Chairman of SENSTUDY, (Congressional Services Office advises Charles Bruce Kirbow is a staff member in Senator Tower's Office.). Kirbow, a former CIA Intelligence Officer, appeared sympathetic to the problems of the intelligence community

SUBJECT: SENATE SELECT COMMITTEE

The purpose of this memorandum is to request the attached basic statement of the Rights and Obligations of current and former employees be approved and be furnished to both current and former employees prior to interview and/or testimony before captioned Committee.

The intelligence agencies under review by this Committee are attempting to establish guidelines with captioned Committee allowing agency representatives to be present during certain interviews. These guidelines have not as yet been approved. Our current procedure has been to brief current and former employees concerning their rights and obligations prior to interview if they so desire. We have also made available a Bureau representative to accompany these individuals to an interview if requested. We feel that, in addition to the general briefing of current and former employees, they should be furnished a copy of the attached basic statement of the employees Rights and Obligations, which may be taken with them during interview or giving of testimony. This attachment will allow the employees to have a document to which they might refer if a matter arises wherein they have some question as to whether they should respond to a particular question.

RECOMMENDATION:

That the attached basic statement of Rights and Obligations be approved and furnished to all current and former employees prior to interview or giving of testimony.

MEMORANDUM TO ALL EMPLOYEES

RE: INTERVIEWS OF FBI EMPLOYEES

All employees are advised that Congress is conducting an inquiry into activities of the Federal Bureau of Investigation. Congressional staff members are conducting interviews of former and current FBI employees. This Bureau has pledged its cooperation with the Congress.

You are reminded of the FBI Employment Agreement (copy attached) with which you agreed to comply during your employment in the FBI and following termination of such employment.

Also, you are reminded of Title 28, Code of Federal Regulations, Section 16.22 (copy attached), which reads as follows:

"No employee or former employee of the Department of Justice shall, in response to a demand of a court or other authority, produce any material contained in the files of the Department or disclose any information relating to material contained in the files of the Department, or disclose any information or produce any material acquired as part of the performance of his official duties or because of his official status without prior approval of the appropriate Department official or the Attorney General in accordance with Section 16.24."

Also, you are reminded of Department of Justice Order Number 116-56, dated May 15, 1956, (copy attached) which, among other things, requires an employee upon the completion of his testimony to prepare a memorandum outlining his testimony.

Our cooperative efforts, of course, must be consistent with the above cited authority. Therefore, if you are contacted for purpose of interview or testimony you are to request approval as required by the Employment Agreement and await authorization before furnishing information, testimony, or record material.

## EMPLOYMENT AGREEMENT

As consideration for employment in the Federal Bureau of Investigation (FBI), United States Department of Justice, and as a condition for continued employment, I hereby declare that I intend to be governed by and I will comply with the following provisions:

(1) That I am hereby advised and I understand that Federal law such as Title 18, United States Code, Sections 793, 794, and 798; Order of the President of the United States (Executive Order 11652); and regulations issued by the Attorney General of the United States (28 Code of Federal Regulations, Sections 16.21 through 16.26) prohibit loss, misuse, or unauthorized disclosure or production of national security information, other classified information and other nonclassified information in the files of the FBI;

(2) I understand that unauthorized disclosure of information in the files of the FBI or information I may acquire as an employee of the FBI could result in impairment of national security, place human life in jeopardy, or result in the denial of due process to a person or persons who are subjects of an FBI investigation, or prevent the FBI from effectively discharging its responsibilities. I understand the need for this secrecy agreement; therefore, as consideration for employment I agree that I will never divulge, publish, or reveal either by word or conduct, or by other means disclose to any unauthorized recipient without official written authorization by the Director of the FBI or his delegate, any information from the investigatory files of the FBI or any information relating to material contained in the files, or disclose any information or produce any material acquired as a part of the performance of my official duties or because of my official status. The burden is on me to determine, prior to disclosure, whether information may be disclosed and in this regard I agree to request approval of the Director of the FBI in each such instance by presenting the full text of my proposed disclosure in writing to the Director of the FBI at least thirty (30) days prior to disclosure. I understand that this agreement is not intended to apply to information which has been placed in the public domain or to prevent me from writing or speaking about the FBI but it is intended to prevent disclosure of information where disclosure would be contrary to law, regulation or public policy. I agree the Director of the FBI is in a better position than I to make that determination;

(3) I agree that all information acquired by me in connection with my official duties with the FBI and all official material to which I have access remains the property of the United States of America, and I will surrender upon demand by the Director of the FBI or his delegate, or upon separation from the FBI, any material relating to such information or property in my possession;

(4) That I understand unauthorized disclosure may be a violation of Federal law and prosecuted as a criminal offense and in addition to this agreement may be enforced by means of an injunction or other civil remedy.

I accept the above provisions as conditions for my employment and continued employment in the FBI. I agree to comply with these provisions both during my employment in the FBI and following termination of such employment.

- 16.21 Purpose and scope.
  - 16.22 Production or disclosure prohibited unless approved by appropriate Department official.
  - 16.23 Procedure in the event of a demand for production or disclosure.
  - 16.24 Final action by the appropriate Department official or the Attorney General.
  - 6.25 Procedure where a Department decision concerning a demand is not made prior to the time a response to the demand is required.
  - 6.26 Procedure in the event of an adverse ruling.

AUTHORITY: 28 U.S.C. 509, 510 and 5 U.S.C. 301.

##### Subpart B—Production or Disclosure in Response to Subpenas or Demands of Courts or Other Authorities

###### § 16.21 Purpose and scope.

(a) This subpart sets forth the procedures to be followed when a subpoena, order, or other demand (hereinafter referred to as a "demand") of a court or

other authority is issued for the production or disclosure of (1) any material contained in the files of the Department, (2) any information relating to material contained in the files of the Department, or (3) any information or material acquired by any person while such person was an employee of the Department as a part of the performance of his official duties or because of his official status.

(b) For purposes of this subpart, the term "employee of the Department" includes all officers and employees of the United States appointed by, or subject to the supervision, jurisdiction, or control of, the Attorney General of the United States, including U.S. attorneys, U.S. marshals, and members of the staffs of those officials.

###### § 16.22 Production or disclosure prohibited unless approved by appropriate Department official.

No employee or former employee of the Department of Justice shall, in response to a demand of a court or other authority, produce any material contained in the files of the Department or disclose any information relating to material contained in the files of the Department, or disclose any information or produce any material acquired as part of the performance of his official duties or because of his official status without prior approval of the appropriate Department official or the Attorney General in accordance with § 16.24.

###### § 16.23 Procedure in the event of a demand for production or disclosure.

(a) Whenever a demand is made upon an employee or former employee of the Department for the production of material or the disclosure of information described in § 16.21(a), he shall immediately notify the U.S. attorney for the district where the issuing authority is located. The U.S. attorney shall immediately request instructions from the appropriate Department official, as designated in paragraph (b) of this section.

(b) The Department officials authorized to approve production or disclosure under this subpart are:

(1) In the event that the case or other matter which gave rise to the demanded material or information is or, if closed, was within the cognizance of a division of the Department, the Assistant Attorney General in charge of that division. This authority may be redelegated to Deputy Assistant Attorneys General.

(2) In instances of demands that are not covered by paragraph (b) (1) of this section:

ENCLOSURE

62-110395-364

(i) The Director of the Federal Bureau of Investigation, if the demand is one made on an employee or former employee of that Bureau for information or if the demand calls for the production of material from the files of that Bureau, and

(ii) The Director of the Bureau of Prisons, if the demand is one made on an employee or former employee of that Bureau for information or if the demand calls for the production of material from the files of that Bureau.

(3) In instances of demands that are not covered by paragraph (b) (1) or (2) of this section, the Deputy Attorney General.

(c) If oral testimony is sought by the demand, an affidavit, or, if that is not feasible, a statement by the party seeking the testimony or his attorney, setting forth a summary of the testimony desired, must be furnished for submission by the U.S. attorney to the appropriate Department official.

**§ 16.24 Final action by the appropriate Department official or the Attorney General.**

(a) If the appropriate Department official, as designated in § 16.23(b), approves a demand for the production of material or disclosure of information, he shall so notify the U.S. attorney and such other persons as circumstances may warrant.

(b) If the appropriate Department official, as designated in § 16.23(b), decides not to approve a demand for the production of material or disclosure of information, he shall immediately refer the demand to the Attorney General for decision. Upon such referral, the Attorney General shall make the final decision and give notice thereof to the U.S. attorney and such other persons as circumstances may warrant.

**§ 16.25 Procedure where a Department decision concerning a demand is not made prior to the time a response to the demand is required.**

If response to the demand is required before the instructions from the appropriate Department official or the Attorney General are received, the U.S. attorney or other Department attorney designated for the purpose shall appear with the employee or former employee of the Department upon whom the demand has been made, and shall furnish the court or other authority with a copy of the regulations contained in this subpart and inform the court or other authority that the demand has been, or is being, as the case may be, referred for the prompt consideration of the appropriate Department official and shall respectfully request the court or authority to stay the demand pending receipt of the requested instructions.

**§ 16.26 Procedure in the event of an adverse ruling.**

If the court or other authority declines to stay the effect of the demand in response to a request made in accordance with § 16.25 pending receipt of instructions, or if the court or other authority rules that the demand must be complied with irrespective of instructions not to produce the material or disclose the information sought, in accordance with § 16.24, the employee or former employee upon whom the demand has been made shall respectfully decline to comply with the demand. OFFICE OF THE ATTORNEY GENERAL

WASHINGTON, D. C.

May 15, 1956

ORDER NO. 116-56

ALL FBI INFORMATION CONTAINED  
HEREIN IS UNCLASSIFIED  
DATE 11/14/00 BY 212-1-1-1/1/04

It is the policy of the Department of Justice to extend the fullest possible cooperation to congressional committees requesting information from departmental files, interviews with department employees, testimony of department personnel, or testimony of Federal prisoners. The following procedures are prescribed in order to effectuate this policy on a basis which will be mutually satisfactory to the congressional committees and to the Department. [This order supersedes the Deputy Attorney General's Memorandum No. 5, dated March 23, 1953, and his Memorandum No. 97, dated August 5, 1954. It formalizes the Attorney General's press release of November 5, 1953, establishing procedures to permit committees of the Congress and their authorized representatives to interview and to take sworn testimony from Federal prisoners. It supplements Order No. 3229 (Revised) dated January 13, 1953, and Order No. 3464, Supplement No. 4 (Revised) dated January 13, 1953 (with Memorandum of "Authorization Under Order No. 3464 Supplement No. 4 (Revised)" dated January 13, 1953), insofar as said orders have reference to procedures to be followed in the Department's relations with congressional committees. In support of this order, reference should be had to the President's letter dated May 17, 1954, addressed to the Secretary of Defense, and to the Attorney General's Memorandum which accompanied it.]

A. REQUESTS FOR INFORMATION FROM DEPARTMENT FILES

1. Congressional committee requests for the examination of files or other confidential information should be reduced to writing, signed by the chairman of the committee, and addressed to the Deputy Attorney General, who is responsible for the coordination of our liaison with Congress and congressional committees. The request shall state the specific information sought as well as the specific objective for which it is sought. The Deputy Attorney General will forward the request to the appropriate division where a reply will be prepared and returned for the Deputy Attorney General's signature and dispatch to the chairman of the committee.

2. If the request concerns a closed case, i. e., one in which there is no litigation or administrative action pending or contemplated, the file may be made available for review in the Department, in the presence of the official or employee having custody thereof. The following procedure shall be followed in such cases:

a. The reply letter will advise the committee that the file is available for examination and set forth the name, telephone extension number, and room number of the person who will have custody of the file to be reviewed;

b. Before making the file available to the committee representative all reports and memoranda from the FBI as well as investigative reports from any other agency, will be removed from the file and not be made available for examination; provided however that if the committee representative states that it is essential that information from the FBI reports and memoranda be made available, he will be advised that the request will be considered by the Department. Thereafter a summary of the contents of the FBI reports and memoranda involved will be prepared which will not disclose investigative techniques, the identity of confidential informants, or other matters which might jeopardize the investigative operations of the FBI. This summary will be forwarded by the division to the FBI with a request for advice as to whether the FBI has any objection to examination of such summary by the committee representative. The file will not be physically relinquished from the custody of the Department. If the committee representative desires to examine investigative reports from other government agencies, contained in the files of the Department, he will be advised to direct his request to the agency whose reports are concerned.

3. If the request concerns an open case, i. e., one which litigation or administrative action is pending or contemplated, the file may not be made available for examination by the committee's representative. The following procedure shall be followed:

- a. The reply letter should advise the committee that its request concerns a case in which litigation or administrative action is pending or contemplated, and state that the file cannot be made available until the case is completed; and
- b. Should briefly set forth the status of the case in as much detail as is practicable and prudent without jeopardizing the pending contemplated litigation or administrative action.

#### B. REQUESTS FOR INTERVIEWS WITH DEPARTMENTAL PERSONNEL

1. Requests for interviews with departmental personnel regarding any official matters within the Department should be reduced to writing, signed by the chairman of the committee, and addressed to the Deputy Attorney General. When the approval of the Deputy Attorney General is given, the employee is expected to discuss such matters freely and cooperatively with the representative, subject to the limitations prescribed in A respecting open cases and data in investigative reports;

2. Upon the completion of the interview with the committee representative the employee will prepare a summary of it for the file, with a copy routed to his division head and a copy routed to the Deputy Attorney General.

C. EMPLOYEES TESTIFYING BEFORE CONGRESSIONAL COMMITTEES

1. When an employee is requested to testify before a congressional committee regarding official matters within the Department the Deputy Attorney General shall be promptly informed. When the Deputy Attorney General's approval is given the employee is expected to testify freely subject to limitations prescribed in A respecting open cases and data in investigative reports;

2. An employee subpoenaed to testify before a congressional committee on official matters within the Department shall promptly notify the Deputy Attorney General. In general he shall be guided in testifying by Order 3229 (Revised) and the President's letter of May 17, 1954, cited at the beginning of this Order.

3. Upon the completion of his testimony the employee will prepare a memorandum outlining his testimony with a copy routed to his division head and a copy routed to the Deputy Attorney General.

D. REQUESTS OF CONGRESSIONAL COMMITTEES FOR THE TESTIMONY OF FEDERAL PRISONERS

Because of the custodial hazards involved and the extent to which their public testimony may affect the discipline and well-being of the institution, it is the policy of the Department not to deliver Federal prisoners outside the penal institution in which they are incarcerated for the purpose of being interviewed or examined under oath by congressional committees. However, when it appears that no pending investigation or legal proceeding will be adversely affected thereby and that the public interest will not be otherwise adversely affected, Federal prisoners may be interviewed or examined under oath by congressional committees in the institution in which they are incarcerated under the following procedures, and with the specific advance approval of the Deputy Attorney General.

1. Arrangements for interviewing and taking of sworn testimony from a Federal prisoner by a committee of the Congress or the authorized representatives of such a committee shall be made in the form of a written request by the chairman of the committee to the Deputy Attorney General.

2. Such written request shall be made at least ten (10) days prior to the requested date for the interview and the taking of testimony and shall be accompanied by written evidence that authorization for the interview or the taking of sworn testimony was approved by vote of the committee. Such request shall contain a statement of the purpose and the subjects upon which the prisoner will be interrogated as well as the names of all persons other than the representatives of the Department of Justice who will be present.

3. A member of the interested committee of the Congress shall be present during the entire time of the interrogation.

4. The warden of the penal institution in which the Federal prisoner is incarcerated shall, at least forty-eight (48) hours prior to the time at which the interview takes place, advise the Federal prisoner concerned of the proposed interview or taking of sworn testimony; and shall further advise that he is under the same, but no greater obligation to answer than any other witness who is not a prisoner.

5. The warden of the penal institution shall have complete authority in conformity with the requirements of security and the maintenance of discipline to limit the number of persons who will be present at the interview and taking of testimony.

6. The warden or his authorized representative shall be present at the interview and at the taking of testimony and the Department of Justice shall have the right to have one of its representatives present throughout the interview and taking of testimony.

7. The committee shall arrange to have a stenographic transcript made of the entire proceedings at committee expense and shall furnish a copy of the transcript to the Department of Justice.

E. OBSERVERS IN ATTENDANCE AT COMMITTEE HEARINGS

In order that the Department may be kept currently advised in matters within its responsibility, and in order that the Deputy Attorney General may properly coordinate the Department's liaison with Congress and its committees, each division that has an observer in attendance at a congressional hearing, will have the observer prepare a written summary of the proceeding which should be sent to the division head and a copy routed to the Deputy Attorney General.

letters and documentary requests for particular COINTELPRO techniques, along with a list of all criminal investigations directly and indirectly related to this COINTELPRO. Additionally, the Committee has requested the three categories being requested of recipient offices.

The Intelligence Division feels that this information should be excluded from that being furnished the Committee as it violates the privacy of individuals involved, discloses sources of the Bureau and will, in all likelihood, greatly limit the Bureau's investigative capacities if the information is disclosed, which is highly likely if furnished to this Committee. In spite of this, this information is being requested in order to have available should the argument for exemption be overruled by the Attorney General.

SUBJECT: Access to Exhibits K, L, and P of "Petersen Report"  
(COINTELPRO) for SSC Staff

After review of A-E as excised, Mr. Elliff has asked if he may now have an opportunity to see and read Items K and L (summary reports on foreign espionage). This request was identified in my memo of June 5, 1975; and I believe it will be followed by a request for personal access to Item P (the overall FBI recommendation). In view of the AG's disclosures to SSC (made in classified letters) regarding certain foreign-oriented Cointelpro activity, I see no reason to deny Mr. Elliff's request for personal access to K and L; and in view of the recent access granted to the T. J. Smith Memorandum on Intelligence Activity (Item 1 of May 14, request) I see no reason to withhold access to Item P.

Accordingly, I recommend that Mr. Elliff be granted personal access to Exhibits K, L, and P, at the offices of the Intelligence Division. I am sending a contemporaneous copy of this memo to Mr. Mintz of the FBI.

**RE: INTERVIEW OF RETIRED FBI  
SPECIAL AGENT (SA) WILFRED L.  
BERGERON BY SSC STAFF MEMBERS**

Set out below is information voluntarily furnished by Mr. Bergeron to the FBI on June 27, 1975. Bergeron served as an FBI SA from August 2, 1943, until his retirement on September 24, 1965.

Bergeron was contacted by SSC Staff Member Michael Epstein, who asked to interview Bergeron at 10:00 a.m. June 27, 1975, at the SSC offices. Bergeron contacted the FBI for the purposes of inquiring as to release from a secrecy agreement with the FBI and to secure consultation assistance at the time of the interview in the event the interview led into privileged areas such as relating to possible identification of FBI sources and possibly affecting ongoing investigations. On June 27, 1975, Bergeron was informed by the FBI that he was being released from any applicable employment agreement for the purposes of the SSC interview concerning the FBI investigations of Martin Luther King, Jr., Stanley David Levison and the Southern Christian Leadership Conference. It was explained to Bergeron that he had a right to counsel; however, the FBI was unable to provide private counsel. (It is noted that Epstein had independently advised the FBI that the above three subject matters would be explored during the interview.) Bergeron was accompanied to the SSC offices

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF RETIRED FBI SA BY SSC

by an FBI representative who made himself available for possible consultation purposes but this representative was never called upon during the interview.

Bergeron was interviewed in SSC quarters for the approximate period of 10:20 a.m. to 11:20 a.m. June 27, 1975. The interview was to have commenced at 10:00 a.m., but Epstein devoted approximately 20 minutes arranging for adequate space for the interview. In addition to Epstein, another Staff Member, Mary DeOreo, was present. She took notes in longhand throughout the interview and also participated in some of the questioning to a small degree. At the outset, Bergeron was advised of his right to counsel and other rights and told that if he gave any information indicating a possible violation of Federal law, his information would be turned over to the Department of Justice. The interview was not under oath and was not pursuant to a subpoena. The details of the interview are set out below, not necessarily in chronological order.

Bergeron was asked for biographic data insofar as his FBI career was concerned and he advised that he had entered the FBI in a clerical capacity in 1940 and was assigned to the Washington Field Office (WFO) of the FBI from October, 1942, until his retirement in September, 1965, almost the entire period as an SA.

Bergeron was questioned and furnished information about the organization of WFO, principally relating to the squads engaged in security work. He was asked to identify supervisory and other personnel attached to the various security squads when he worked in WFO and in most instances his replies were that due to time lapse he was unable to

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF RETIRED FBI SA BY SSC

furnish specific names. He pointed out that if there was made available to him the various personnel directories of WFO down through the years he might better be able to respond to such inquiries.

Questioning turned to the FBI investigation of Martin Luther King, Jr., and specifically to electronic coverage of King at the Willard Hotel in Washington, D. C., in the mid-1960's. He was asked how this coverage came about and responded that he was called into the office of the Security Coordinator in WFO, Ludwig W. R. Oberndorf (deceased). Present were an FBI Assistant Director, William C. Sullivan, SA William Welch (deceased) and two to four other WFO SAs, names not now recalled. This conference was led by Sullivan, who explained that King and some of his associates were coming to Washington, D. C., and that the Bureau desired to effect technical coverage on King. It was Sullivan's information that King had spent time in New York City and had been discovered to have a number of communist contacts there. Because of these contacts, the FBI interest in King was a national security matter, according to Sullivan.

Bergeron was asked whether Sullivan mentioned the specific types of coverage desired and Bergeron could not recall beyond the generic description of technical. Bergeron explained that SA Welch was present because he was the hotel contact man for WFO. It was assumed that because King was coming to Washington, D. C., with several other individuals, they would probably stay at a hotel rather than in someone's home. It was therefore believed desirable to utilize the help of an SA who had contacts with the various hotels.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF RETIRED FBI SA BY SSC

After it was determined that King and his party were to stay at the Willard Hotel, Bergeron was taken there by Welch and introduced to one of the Willard's staff, name not recalled. Bergeron was then shown rooms similar to the ones which had been reserved for King and his party. This was part of the feasibility survey which Bergeron performed to determine whether it would be feasible to make a technical installation, Bergeron being a trained "sound man."

Bergeron was queried as to who made the decision as to the exact types of coverage to be put in effect and Bergeron replied that he himself made that decision. He was asked if there was office correspondence authorizing an installation and Bergeron responded that there was--that he always insisted that there be when he made an installation. Bergeron explained that the authorization could have been either of two types. The Bureau letter might have authorized only a feasibility survey; or it might have authorized both feasibility survey and installation. Bergeron said that he had seen whatever paper there was containing the authorization even though such correspondence would be addressed to the Special Agent in Charge (SAC). He explained the routing of such mail whereby the SAC would route it to the appropriate supervisor and then to the SA who was to make the installation.

In response to general questioning, Bergeron advised that electronic surveillances might start in two different ways. One would be when a field office would originate the correspondence and the other would be when FBI Headquarters would originate the correspondence.

In response to questions concerning the type and nature of the installation, Bergeron made at the Willard Hotel, he advised that he had placed a transmitter in each of two

Lamps and then through the hotel contact, it was arranged to have the housekeeper change the lamps in two rooms which had been set aside for King and his party. This was handled in this matter in order to afford maximum security to the operation and avoid, if possible, any suspicion among employees of the hotel which might have been then transmitted to the King party.

Bergeron was asked whether any telephone surveillance was installed and he replied that none had been made in the Willard Hotel. Bergeron could not recall whether or not the Bureau had asked for such a surveillance. In any event, Bergeron explained that such a surveillance would have been too complicated because of the presence of a switchboard at the hotel. Bergeron was asked whether he could have used switchboard operators to assist in such a surveillance and his response was "no." Bergeron was next asked if he had ever put a telephone surveillance in any hotel room and he responded, "Do you mean in the King case?" Epstein then asked if Bergeron had made such an installation in any case and Bergeron advised Epstein that he was cleared to discuss only the King case.

Questioning then turned to the matter of the monitoring of the microphone surveillance which he had installed. Bergeron explained that they required two rooms for such monitoring and that there were utilized in these rooms radio receivers and tape recorders. Upon request, Bergeron gave the name of Bill Campbell as one of the SAs doing the monitoring and said there was another SA, name unrecalled. Bergeron indicated that he himself listened to very little of the transmissions; only enough to test the efficiency of the transmissions. Bergeron was asked if he had seen any of the logs which were made and he replied

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF RETIRED FBI SA BY SSC

that he probably had but did not recall any of the contents. Bergeron advised that he probably saw transcripts of the monitoring but again could not recall any of the contents. He was questioned as to what happened to the logs and transcripts and replied that he assumed that they had been sent to FBI Headquarters. As to the tapes themselves, Bergeron indicated he had no idea of what disposition was made of them.

Bergeron was asked if WFO had a file on King prior to the situation described above and he advised he had no knowledge on that matter.

He was asked if he knew of any other similar coverage on King in other places and his response was that any affirmative answer he might give would be mere hearsay.

Epstein inquired of Bergeron as to who he had talked to after Epstein first called him to arrange the interview. Bergeron told Epstein that he had talked to another FBI SA, Ernest Belter (previously interviewed by SSC Staff). Epstein inquired as to why Bergeron had contacted Belter and Bergeron told Epstein that he did it for the purpose of thanking Belter for "small favors" because Belter had supplied Bergeron's name to Epstein. Bergeron also explained that he called Belter, who he had learned had already been interviewed by the SSC, to find out who he, Bergeron, should talk to in the Bureau about any forthcoming interview.

In response to questioning, Bergeron told Epstein that earlier that morning he had seen FBI Assistant Director John Mintz and SA William O. Cregar in connection with obtaining the necessary clearance prior to being interviewed.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF RETIRED FBI SA BY SSC

He was asked if they had discussed the King case with him and he responded that they had not. He was asked if he had reviewed any FBI files prior to the interview and he responded that he had not. He was asked if any files were offered to him and he responded that none had been offered him. He was asked whether he had requested an opportunity to review FBI files and he replied that he had not made any such request. Miss DeOreo then asked Bergeron if it was his decision to not look at FBI files to refresh his memory prior to the interview. He responded by advising that he no longer worked for the FBI and therefore believed he had no right to review FBI files.

Questioning then turned to the matter of photographic coverage of King at the Willard Hotel and in response to a direct question, Bergeron advised there was no such coverage. He was asked whether any "surreptitious coverage" was utilized and his response was that none had been used. He was questioned concerning possible use of TV coverage and responded that none was used. Bergeron explained that they were talking about a period over 10 years ago when such equipment was not nearly as well developed as it is today.

When it appeared that the interview was concluded, Bergeron inquired as to whether the interviewers were "finished" with him. Epstein indicated that they were not and that they would probably call him back again because of Bergeron's "broad general knowledge of intelligence activities." Bergeron disclaimed such knowledge.

NOTE:

Bergeron was accompanied to the interview by SA S. F. Phillips of the Senstudy 75 Project, who also debriefed Bergeron as reported herein. The advice given to Bergeron prior to the interview concerning being released from employment agreement was by Assistant Director Mintz.

Attached is a request for further detailed information from Senate Select Committee, regarding COINTELPRO, from Mr. Elliff dated July 1, 1975.

Please note that this matter is considered and characterized as an "abuse" (see page 21 of enclosures to SSC letter of June 27, previously forwarded); accordingly, any Agent interview would be an "abuse interview" subject to the strictures set forth in the "Outline for Inquiry Procedures" referenced in the SSC letter of June 27. Because of this, I feel we should discuss the procedures for interview which may be sought under page 2, paragraph "Interviews" of Mr. Elliff's attached letter. It may be that the matter should be discussed with the Deputy Attorney General as well, after Mr. Levi has responded to the SSC letter of June 27. A significant legal problem may be presented by the compulsion of Agents' appearance. Please also note the attached Departmental decision on the interpretation of "demand" in 28 C.F.R., 16.21 et. seq. This decision will bear on our resolution of the pending legal problem.

REC-107 62-116395-352

In the meantime, please arrange for the preparation of an appropriate reply enclosing a collection of appropriate documentary material responsive to this letter; I have acknowledged Mr. Elliff's letter today (a copy of my letter is attached).

Dear Mr. Elliff:

Your letter dated July 1, 1975, was delivered to the Office of the Deputy Attorney General on July 8, 1975, and reached me at 10 a.m., that day. I have forwarded your letter to the Federal Bureau of Investigation with a request that an appropriate response be prepared.

We will, of course, attempt to cooperate respectively with the Senate Select Committee's continuing requests for data and for interviews. You should be aware, however, that the characterization of an area of Senate Select Committee inquiry as an abuse may significantly alter arrangements for access to witnesses who are present employees of this Department. We are studying the legal problem presented, and will, in due course, advise you of our conclusions in this regard.

SUBJECT: Interpretation of "Demand",  
28 C.F.R., § 16.21, et. seq. - Action Memorandum

The meaning of "demand" is not indicated, beyond subpoena, in the C.F.R. sections indicated. This omission creates a need for an interpretation, for purposes of uniform Department of Justice reaction.

Outlines for inquiry proceedings were agreed upon between the White House and the Senate Select Committee on June 13, 1975, and a copy of those procedures was furnished to the Department on June 16, 1975. Under those guidelines, there is a general undertaking by the Committee to identify witnesses to the Agency a reasonable time before the interviews occur. This general rule includes current and former employees; certain exceptions (not clearly defined) are indicated in the guidelines. The Committee is required to provide the witness with a copy of the procedures, and "relevant waivers of secrecy oaths or agreements for the purpose of this inquiry". The Committee is required to give prior notice of an interview, generally, specifying: (a) subject area; (b) periods of employment; (c) the date set for the interview.

Since these structured procedures, taken with the rules of the Subcommittee, may create a requirement of testimony upon witnesses, it seems to me clear that the paragraphs of 28 C.F.R., § 16.21, et. seq., which refer to "demand" should be interpreted to include any request by any Committee staff member to interview any employee, former employee or other person connected with the Department of Justice.

This interpretation requires certain action: (1) that the witness be authorized to speak under § 16.23 by an appropriate Department Official; and, (2) that an appropriate Department Official be designated. I would think that the appropriate Department Official for the FBI should be the Director of the FBI or the FBI General Counsel, in coordination with this office.

As a matter of current practice, the FBI and other components of the Department are presently coordinating with me on agreements for disclosure under § 16:23, as a system for ensuring that they are receiving treatment consistent with the outlines of inquiry procedure and the agreements between the Committee and the Department.

If you approve, I will advise the involved components of the Department of Justice that the word "demand" will be interpreted as indicated for each witness.

Reference is made to letter dated June 24, 1975, from Mr. John T. Elliff, Director, Domestic Intelligence Task Force, SSC, to Mr. K. William O'Connor, Special Counsel for Intelligence Coordination, Office of the Deputy Attorney General, which furnished a list of 21 names of current and former FBI SAs and which requested information as to their current whereabouts.

It is noted that two of the names listed, Richard Hamilton and Charles Haynes, were duplicated in the listing. Thus, 19 different individuals appear to be the subject of the SSC interest.

A number of the names were believed to be misspelled in the listing and we reconstructed the names in what appear to be the correct spellings based upon the information in referenced letter that, with two exceptions, all the individuals were believed to have served for the FBI at either Atlanta or Albany, Georgia. Set out below, in the same order as in referenced letter, is the desired information. Where the name of an FBI field office is indicated, the SA is an incumbent. For all others, the addresses listed are the last ones known to the FBI for the former SAs.

NOTE:

The 6/24/75 SSC letter made reference to prior SSC request pertaining to the FBI investigation of Martin Luther King, Jr., and indicated that of the persons listed in the letter, with only two exceptions (Larry Gurley and William D. Campbell), all were believed to have served at either Atlanta or Albany, Georgia, with the FBI. Gurley and Campbell were understood to have been assigned to FBIHQ. In attempting to identify correctly the individuals listed because of misspellings of names, we ran down the fact that with the exception of Gurley and Campbell, all had at one time served in the Atlanta Field Office except for a John Bassett. The only current or former Agent by this name is assigned to Chicago and has never

been assigned to Atlanta. P. V. Daly of Legal Counsel Division rechecked with Mike Epstein of the SSC Staff who advised that the John Bassett in Chicago is the correct one. S. F. Phillips of the Senstudy 75 Project telephonically contacted Bassett 6/26/75 and determined Bassett not only has never been assigned to Atlanta but he has no recollection of having ever worked on the King case. Notwithstanding, we are including Bassett's current office of assignment as requested, even though we currently do not know specifically why the SSC is considering interviewing him.

OTHER SPECIFIC FBI PRACTICES AND PROGRAMS**

Reference is made to memorandum from captioned  
Committee dated May 14, 1975, and the appendices thereto,  
which contained a request for all memoranda and other  
material reflecting activities of any Agents, employees,  
or informants of the FBI in connection with the establish-  
ment, creation or financing of national Marxist-Leninist  
organizations within the United States (Appendix C, III, 25a)  
and of the [Red Star Cafe or Red Star Soap Shop, and The  
Red Collective] (Appendix C, III, 25b). (S)

Due to the extremely sensitive nature of the  
information requested and potential damage to sensitive  
sources and methods, this Bureau's participation in such  
activities is being set forth in a summarized form which  
is believed to be responsive to the Committee's inquiry.

Appendix C, III, 25a

A national Marxist-Leninist organization was  
established by an informant under the direction of this  
Bureau during November, 1970, as a technique to expand  
the informant's coverage of subversive and extremist groups,  
domestic and international, and to enable the informant to  
collect extremist literature of international organizations  
which had selected domestic groups for possible penetration.

Subsequently, the organization was enlarged to include other Bureau informants and the entire operation was financed by means of regular payments to those informants for services and expenses. [One activity in which this organization engaged was the preparation and distribution of a periodic newsletter to lend authenticity to the operation.] This operation was discontinued in November, 1974, when it was determined that it was failing to provide quality intelligence. (S)

[Investigation] [Bureau] [Library] (S)  
A second national Marxist-Leninist organization was formed during October, 1970, by informants under the direction of this Bureau. It was established to expand the informants' sphere of contacts and to assist those informants in gathering intelligence concerning activities of various subversive and extremist groups. This operation was financed through regular payments to informants for their services and expenses. The activities of this organization were phased out during October, 1974, as the operation was failing to provide sufficient quality intelligence to justify its continuance.

[100-1111] [Bureau] [Library] (S)  
A third national Marxist-Leninist organization originated in the early 1980s as a means to counteract communist propaganda being promulgated by the CPUSA. Thereafter, a post office box was established and in 1983 the first operational asset was assimilated into the organization. [This organization subsequently developed into a national pro-Chinese communist organization staffed by operational assets who operated an executive Committee and made contacts in the name of the organization for the purpose of penetrating political and intelligence activities directed against the United States by the People's Republic of China. These operational assets made contact with both domestic and foreign pro-Chinese Marxist-Leninists and periodically, prepared and mailed a bulletin to known Marxist-Leninist groups to authenticate the organization as a viable functioning group. As a result of this operation, circulation of the bulletin and personal contacts of the operational assets, this national organization has established contacts with pro-Chinese communist organizations in a number of countries and with the People's Republic of China (PRC) through the PRC Embassy in Ottawa, Canada.] This national organization is financed out of FBI funds in terms of monies paid to the participating operational assets. (S)

[100-1111] [Bureau] [Library] (S)

- 2 -  
SECRET

Appendix C, III, 25b (1)The Red Star Cadre or Red Star Swap Shop (S)

In October, 1972, the Tampa Office of the FBI began utilizing The Red Star Cadre (RSC) title as a cover for Joseph Alfred Burton, a self-proclaimed former informant of the FBI. (S)

Burton has publicly advised of his association with the FBI, having cooperated with this Bureau from May, 1972, until July, 1974. He voluntarily severed his relationship with this Bureau since he desired to provide security for his family and because he was no longer willing to be associated with the communist revolutionary movement.

The Red Star Cadre, national in nature, was subsequently projected as a small Marxist-Leninist pro-Chinese communist revolutionary group using a post office box for a mailing address. The objectives of The Red Star Cadre were the identification of pro-Chinese communists as well as the People's Republic of China intelligence and political activities in the United States, including the influence of the People's Republic of China on the domestic revolutionary movement. Secondary objectives were to develop information relating to domestic Marxist-Leninist-Maoist activities. During the period of the existence of The Red Star Cadre (until July, 1974) numerous informants were utilized in an effort to carry out the above-mentioned objectives. During early discussions with Burton, he advised this Bureau that he intended to operate a "swap shop" in Tampa. Subsequently, in June, 1972, he opened the Red Star Swap Shop (RSSS) and operated it until December, 1972. The RSSS served as a store serving radical interests. (S)

The Red Star Cadre was financed by this Bureau through regular payments to informants for services and expenses. (S)

[The Red Star Swap Shop] (S)

Appendix C, III, 25b (2)The Red Collective (S)

The Red Collective (RC) was established during February, 1972, by a former confidential informant of the FBI. It was national in nature in that it only served as a basis for informants, as alleged members of a revolutionary collective, to maintain contact with individuals and organizations of intelligence interest. It was anticipated the RC would eventually be utilized to place informants in contact with political or intelligence officers of the People's Republic of China (PRC). (S)

SECRET

Although use of the EC did not result in contact with ROC officers, it did serve as a means for informants to establish contacts with a number of pro-Chinese Marxist-Leninist groups and other subversive or extremist elements. This operation was financed by the FBI through regular payments to informants for their services and expenses. During September, 1973, instructions were set forth by this Bureau that it was not desired that new informants be developed to operate within the EC or that the EC be expanded further as a national organization. The informants utilized in this operation have been discontinued and the EC exists in title only. (S)

[100-471704 The Red Collective] (S)

Other than those national Marxist-Leninist organizations mentioned above, this Bureau is not aware of any additional Bureau-sponsored national Marxist-Leninist organizations within the United States. Should the decision be made that additional information concerning above matters is necessary, it is suggested an oral briefing be requested.

This Bureau does not maintain any specific records which identify national organizations, as such. Identities of specific national organizations were developed through review of logical files and through contacts with knowledgeable personnel.

It should be recognized also that, on occasion, as an investigative technique, the name of a non-existent, completely fictitious organization may have been used as a temporary cover in an investigation. [An example would be the use of an organizational letterhead of the "Temporary Committee for the Protection of Serbian Nationalism" to support mailing to Serbian emigre leaders of a pamphlet denouncing terrorism and violence. Such an organization would not be used on a continuing basis; no headquarters address or post office box would be claimed; no informants or other resources would be used in any attempt to validate such an organization.] In short, this would be a (S) "fictitious" rather than a "national" organization.

SUBCOMMITTEE ON CIVIL AND CONSTITUTIONAL RIGHTS  
OF THE HOUSE COMMITTEE ON THE JUDICIARY

RE: DEMONSTRATION AT FEDERAL BUILDING,  
AKRON, OHIO, JANUARY 27, 1975

Reference is made to letter dated April 10, 1975, to the Attorney General from the Chairman of captioned subcommittee. Item two on page two of this letter refers to an attachment setting forth questions to which Congressman John F. Seiberling requested responses concerning FBI participation in the demonstration referenced above.

Prior to the actual questions, a description of events surrounding this demonstration was set forth, which had been provided by Congressman Seiberling during questions asked of FBI Director Clarence M. Kelley during the hearing on the oversight of the FBI held on February 27, 1975. Congressman Seiberling's summary as set forth is considered accurate, with the following exceptions:

In connection with the statement, "At some point during January, 1975, there was a bomb threat against the new Federal Office Building in Akron," the Cleveland Office of the FBI, which is the headquarters office of the FBI Resident Agency at Akron, Ohio, has advised a review of its records fails to indicate that any information concerning a bomb threat against the Federal Building in Akron was received during January, 1975, and no action taken by the FBI regarding this demonstration was related to any bomb threat.

Concerning the statement, "On January 27, a group of six to eight people demonstrated outside the building against continued U. S. assistance to South Vietnam," it is noted that FBI records indicate approximately 15 persons participated in the demonstration.

Subcommittee on Civil and Constitutional Rights  
of the House Committee on the Judiciary

Responses to the aforementioned questions are set forth below and appear in the same order as posed.

1. The FBI conducts surveillances of demonstrations occurring on or near Federal property; at other locations when facts indicate a violation of Federal statutes over which the FBI has investigative jurisdiction may occur; or at a site where individuals of investigative interest to the FBI are present or the demonstration is sponsored by an organization of investigative interest. In this instance, the FBI had received information from a source, who has provided reliable information in the past, that an organization of investigative interest to the FBI would be attempting to gain publicity by entering the Federal Building in Akron, creating disturbances and defacing Federal property. This organization has been determined to be influenced by a separate organization which espouses a basic Marxist-Leninist-Maoist revolutionary ideology. Investigation of both of these organizations is based on information which indicates they may be engaged in activities which could involve violations of Title 18, United States Code, Sections 2383 (Rebellion or Insurrection), 2384 (Seditious Conspiracy), 2385 (Advocating Overthrow of Government), and 2387 (Sedition). In addition, inasmuch as the possibility existed individuals present at the demonstration would attempt to deface Federal property, there was reason to believe a violation of Title 18, United States Code, Section 1361 (Destruction of Government Property) could occur. At a later date, additional information was received from a second source, who has provided reliable information in the past, that the demonstration at the Federal Building in Akron would be to protest United States involvement in Southeast Asia, and leaflets urging support of this demonstration were being distributed in the Akron-Kent, Ohio, area. In keeping with existing FBI policy, the Akron Police Department and the General Services Administration Building Manager in charge of the Akron Federal Building were notified of the impending demonstration and of information received indicating a possibility that disruptive activity would occur during the demonstration.

Subcommittee on Civil and Constitutional Rights  
of the House Committee on the Judiciary

Surveillance in this case was not related to any bomb threat; however, based on the information stated above, there was reason for the FBI to suspect that there might be violations of Federal statutes over which the FBI has investigative jurisdiction. In the event such violations did occur, it would be necessary that Agents be present to gather the necessary evidence.

The FBI did have an interest relating to the identities of the particular individuals who were involved in organizing the demonstration. One such individual, who played a key role in plans to cause disruptive activity and in organizing the demonstration, has been arrested and convicted for abuse to a police officer, resisting arrest, disorderly conduct, trespassing, and disrupting lawful assembly in the past and has been described by a source, who has provided reliable information in the past, to have indicated in the past a desire to "get something going with the police." This same individual is also considered by the source to be unstable and violence-prone. In addition, the individuals planning the demonstration, as previously mentioned, were affiliated with an organization which follows a revolutionary ideology.

2. There were no known violations of Federal or local statutes during the demonstration; there was no violence; and there were no arrests as a result of the demonstration. Both visual and photographic surveillances were conducted by the FBI during the demonstration. Current FBI instructions state that photographic surveillances should be considered on a selective basis when circumstances indicate they may be productive. The decision-making authority in such a matter is vested in the Special Agent in Charge of the particular headquarters field office of the FBI, his assistant in his absence, or the Agent supervisor acting on their behalf in the absence of both. In the event unusual circumstances exist, the Special Agent in Charge of a particular field office would request authority from FBI Headquarters in Washington, D. C., to conduct a photographic surveillance. Photographs were taken for the possible evidentiary purpose of recording anticipated events leading to the perpetration of an act by one or more demonstrators in violation of the Federal statute concerning destruction of Government property, as well as recording on film any overt act. FBI Agents observed the demonstration for the same reason and for the additional purpose of effecting, if necessary, the arrests of individuals violating Federal statutes.

Subcommittee on Civil and Constitutional Rights  
of the House Committee on the Judiciary

Both prints and negatives of photographs taken by the FBI have been maintained, from the time processed, as exhibits in records of the FBI's Cleveland Office. The film was developed because, among the approximately 15 demonstrators present outside the Akron Federal Building, Agents recognized five individuals known to be affiliated with the organization in which the FBI had investigative interest. In the event photographs depicting these individuals were of better quality than existing photographs, the improved ones would be, in accordance with FBI policy and in line with an agreement between the FBI and the Secret Service concerning Presidential protection, forwarded to the Secret Service for possible future use by that agency in connection with its responsibilities. The photographs obtained, however, were not suitable for this purpose.

Prints of these photographs were not made available to the Akron Police Department, were not forwarded to FBI Headquarters in Washington, D. C., and were not made available to anyone else. These prints were not retained at the Akron FBI Resident Agency, but were sent to the Cleveland FBI Office and are maintained in the files of that office.

3. The Akron FBI Resident Agency did make an attempt to identify the unknown participants in the demonstration from the photographs taken during the demonstration. Information concerning the identities of some of the demonstrators was provided by the Akron Resident Agency to the Intelligence Division, Akron Police Department, for the purpose of bringing to their attention the identities of those individual participants who have been involved in disruptive activities in the past and who may become so involved again in the future. One of the individuals so identified to the Akron Police Department has reportedly urged "spontaneous violence" at a demonstration in the past.

Files of the FBI are not maintained at the Resident Agency level; therefore, information concerning the identities of some of the demonstrators has been placed and is being maintained in the files of the Cleveland FBI Office.

Subcommittee on Civil and Constitutional Rights  
of the House Committee on the Judiciary

4. It is believed the FBI should retain photographs and information gathered concerning the identities of demonstrators following a demonstration in which the presence of the FBI is justified, even though such demonstration ends peacefully with no arrests and no violations of either Federal or local statutes. In the few selective instances in which demonstrations have been photographed, a substantive reason has existed justifying the use of photography. In this instance, photography was utilized in anticipation of commission of a Federal offense and in connection with the investigation of an organization, and individuals affiliated therewith, on whom the FBI was conducting investigation under the statutes mentioned herein.

Additionally, information of this nature is maintained in accordance with the records retention plan furnished the FBI by the National Archives and Records Service during 1969. This plan identified categories of records which were considered to have a permanent value and which should be retained indefinitely by the FBI. Included were those records involving crimes of treason, insurrection or rebellion, sedition, subversion, sabotage, espionage, counterintelligence and related internal security functions.

(D) ATTACHE PHOTOCOPY UNITS - PHOTOGRAPHIC EQUIPMENT --  
The Attache Photocopy Units are portable document copy equipment. These units are now available for field use. The enclosure shows one of these units in various stages of assembly. Units will be furnished to each office having available a Special Agent who has received the Laboratory's specialized training in surveillance photography. The equipment will be sent by FBI Laboratory invoice, and on receipt of the equipment appropriate inventory additions should be made, recording the serial number of the unit along with the serial number of the camera and of the lens. Panatomic X film for use in this equipment can be requisitioned from Bureau supply.

This document copy equipment is completely self-contained, requires no outside power source and, therefore, can be used to copy documents in an automobile or at any location without regard to the availability of electric power of any kind. These units are contained in regular attache cases measuring 18 inches by 12 inches by 4 3/4 inches and the gross weight of each unit is 16 pounds. The units are assembled by raising the supporting sides into upright positions and placing the camera-light assembly in position on top of these sides. The lights are then swung to the sides to complete the assembly. An assembled copy unit may be used, either standing in the attache case, or removed from it. Documents

up to legal size may be copied in a single exposure but large documents may be copied in sections by multiple exposures if the units are removed from the attache cases. Complete operating instructions are included with each unit.

The lights in the Attache Photocopy Units are electron photoflash lights and are powered by a 90-volt battery which is good for a minimum of 1000 exposures. The camera used in the equipment is a standard 35 mm Minolta SR-1 camera with a 35mm f4 Rokkor lens. These cameras take standard 36 exposure loads of film, have rapid wind levers and may be reloaded without detaching from the units. Kodak Panatomic X or equivalent ASA 50 film requires an exposure of 1/15 second at f11 or 1/8 second at f16 in these units.

Attache Photocopy Units have already been furnished to New York, Washington Field, Jackson, Miami, and Atlanta. In the near future units will be forwarded to Albany, Albuquerque, Baltimore, Birmingham, Boston, Buffalo, Charlotte, Chicago, Cincinnati, Cleveland, Dallas, Detroit, Honolulu, Houston, Indianapolis, Jacksonville, Kansas City, Knoxville, Las Vegas, Little Rock, Los Angeles, Louisville, Milwaukee, Minneapolis, Mobile, Newark, New Haven, New Orleans, Norfolk, Oklahoma City, Omaha, Philadelphia, Phoenix, Pittsburgh, Portland, Richmond, St. Louis, San Antonio, San Diego, San Francisco, San Juan, Seattle, and Springfield. Request for additional Attache Photocopy Units or request from offices not receiving units at this time should be made by letter marked for the attention of the FBI Laboratory.

(B) AUTOMOTIVE EQUIPMENT USED IN SURVEILLANCES -- You are reminded of the necessity that automotive equipment used in surveillances be sufficiently varied as to minimize the danger that persons under surveillances will recognize it as "policemen's equipment." A limited amount of special surveillance equipment is located in the various offices. Efforts will be made in the future to augment this equipment. Until procurement of sufficiently varied automotive equipment can be obtained, you are authorized to make appropriate use of rental equipment where necessary; however, it is your responsibility to see that such rental equipment is completely justified. Whenever such use will be extensive and the cost is estimated to exceed \$100, prior Bureau authority must be obtained and may be obtained on an expedite basis. You are reminded of the importance of maintaining special surveillance vehicles and equipment in a secure manner to insure none of our surveillances are in any way jeopardized. Existing regulations require that all radio-equipped surveillance trucks be provided separate garage and storage treatment. The desirability of maintaining other surveillance automotive equipment separately from our normal equipment should be carefully evaluated. Where circumstances dictate, such equipment should be provided the same separate facilities as is now required of radio-equipped surveillance trucks. Appropriate manual changes concerning the rental of surveillance equipment will be forthcoming.

MEMORANDUM 11-72

(I) COVERAGE OF "SECURITY" SUBJECTS "FREE ON BOND" -- Henceforth, in every security case involving a subject who has been apprehended for a Federal violation within our investigative jurisdiction it will be incumbent upon the office of origin to make recommendations to the Bureau concerning the necessity for physical surveillance coverage of the subject who is free on bond while awaiting trial or pending appeal following conviction. It will be incumbent upon the office of origin to closely follow the appeal proceedings of security subjects, making arrangements with the Washington Field Office or other offices, where necessary, in order that the office of origin can be assured that it is instantaneously notified of any court decision affecting the merits of the appeal. It will be incumbent upon the office of origin to promptly notify the Bureau in such instances, making recommendations for any changes in the coverage of the subject and whether physical surveillance should be utilized until he is committed to custody.

Very truly yours,

John Edgar Hoover

(H) ESPIONAGE AND FOREIGN INTELLIGENCE INVESTIGATIONS SURVEILLANCES OF SOVIET-BLOC PERSONNEL -- For years Soviet officials in the United States have made numerous and repeated trips throughout this country aimed at obtaining valuable data regarding our air bases, missile sites and other important defense installations. In recent years they have coordinated their activities in this regard with the satellite countries and in this way are getting coverage of areas in the United States closed to Soviet travel.

In connection with our responsibility in regard to coverage of Soviet-bloc activities, these Soviet-bloc officials have been placed under surveillance. Many offices have participated in these surveillances, and it appears that this activity on the part of the Soviet bloc will continue.

On May 16, 1962, a number of newspapers in the United States carried an Associated Press article, date line Moscow, May 15, 1962, reporting that a correspondent for "Izvestia," the official Soviet Government newspaper, alleged that during a recent tour of the United States he was constantly shadowed by the "American secret service." He also alleged newspaper reporters and television men had "close business connections with the FBI" because reporters met him at the railroad station in Portland, Oregon, when he arrived there. He alleged he was under heavy surveillance in Seattle, Washington, and furnished license numbers of two automobiles he alleged were conducting surveillance of him in Los Angeles, California.

The Bureau determined that the allegations of the Soviet correspondent were completely false and undoubtedly were an attempt by the Soviets to embarrass this Bureau and to curtail our counter-intelligence operations. There is a definite possibility other Soviet-bloc personnel may make similar charges in the future and in this connection may attempt to obtain proof of their allegations, such as obtaining photographs of Bureau cars or surveillance agents. It is known that bloc personnel have made numerous attempts to do this in the past.

We do not intend to allow a false allegation by the Soviet bloc to alter coverage of their activities. Our surveillances undoubtedly have hampered the Soviets in collection of intelligence data in the United States, and we can expect them to create or utilize any incident they can as a basis for protest against our coverage.

It is desired, therefore, that the above facts be called to the attention of all agents. It should be pointed out that while the Bureau desires our coverage of Soviet-bloc officials to be as complete as possible, the surveillance must be discreet and every precaution must be taken to avoid giving the Soviets a basis for protest.

You should impress upon agents handling surveillances of Soviet-bloc personnel in the United States that they must constantly exercise keen alertness, careful planning and good judgment in handling all facets of our surveillance operations.

Very truly yours,

John Edgar Hoover
